

1911 STOCK BUSHINGS - 1911 STAINLESS STEEL STOCK BUSHINGS, 1 SET OF 4

[Handgun Parts](#) > [Grip Parts](#) > [Grip Bushings](#)

Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings. Standard Stock Bushing - Nicely made and finished, these special-sized, bushings are packed in sets of 4 Bushings. Stainless Steel (S/S) Stock Bushing - Look "right" on stainless steel and nickel-plated guns.

1911 Stock Bushings Safety Instruction Guide

Introduction

Thank you for choosing the 1911 Stock Bushings. These bushings are designed to enhance the performance and appearance of your 1911 Government model auto. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** Ensure safe usage of the 1911 Stock Bushings by following the instructions provided in this guide. These bushings are designed for use with the 1911 Government model and should not be used with other firearms.
- **Enhanced Recalls:** Stay informed about any recalls related to the product. Check for updates regularly on the relevant safety platforms.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements and provides clear information about the product.
- **Special Consumer Focus:** These bushings are not intended for use by children. Ensure that they are kept out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the relevant EU authorities.
- **Rapid Alerts:** Be aware of any updates on unsafe products through the Safety Gate system.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper installation may lead to firearm malfunction.
 - Stripped bushings can affect the grip stability and overall safety of the firearm.
- **Avoiding Hazards:**
 - Always ensure the firearm is unloaded before beginning any work.
 - Use the correct tools and techniques for installation to prevent damage to the bushings or the firearm.
 - Inspect bushings for any signs of damage or wear before installation.
- **Age Specific Warnings:**
 - This product is intended for adult use only. Do not allow children to handle or use these bushings.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded and safe to work on.
- Gather necessary tools: a proper tap drill (7/32" for standard bushings and a suitable tap for stainless steel bushings).

2. Installation:

- Remove the existing grips and bushings from the firearm.
- Clean the bushing holes to remove any debris or old lubricant.
- Carefully install the new bushings:
 - For Standard Bushings: Ensure they are aligned correctly and use the .236"60 tap drill.
 - For Stainless Steel Bushings: Use the .150"50 thread tap to secure the bushings.
- Tighten the bushings gently to avoid stripping the threads.
- Reattach the grips securely after installation.

3. Usage:

- Regularly inspect the bushings for any signs of wear or damage.
- If you notice any issues, replace the bushings immediately to ensure safe operation of the firearm.

Disposal Instructions

- Dispose of any old or damaged bushings in accordance with local regulations. Do not dispose of them in regular household waste.
- If you are unsure about disposal methods, contact your local waste management authority for guidance.

Contact Information for Further Support

For any questions or concerns regarding the 1911 Stock Bushings, please consult with your dealer or refer to relevant authorities for assistance.

Thank you for prioritizing safety while using your 1911 Stock Bushings. Proper care and attention will help ensure a reliable and safe experience with your firearm.
