

1911 STOCK BUSHINGS - 1911 STAINELSS STEEL STOCK BUSHINGS, 12 SETS OF 4 (48)

[Handgun Parts](#) > [Grip Parts](#) > [Grip Bushings](#)

Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings. Standard Stock Bushing - Nicely made and finished, these special-sized, bushings are packed in sets of 4 Bushings. Stainless Steel (S/S) Stock Bushing - Look "right" on stainless steel and nickel-plated guns.

Safety Instruction Guide for 1911 Stock Bushings

Introduction

Thank you for choosing the 1911 Stock Bushings. These bushings are designed to enhance the performance and appearance of your 1911 Government model auto. To ensure your safety and the longevity of your product, please read this safety instruction guide carefully.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the 1911 Stock Bushings by following the provided guidelines. These bushings are designed for nonfood products and comply with EU safety regulations.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. If a recall occurs, remedies will be provided free of charge.
- **Online Shopping:** When purchasing online, ensure that the seller complies with safety standards similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when using these bushings, especially around vulnerable groups, such as children. Keep all tools and small parts out of reach.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point provided by your retailer.
- **Rapid Alerts:** Be aware of updates regarding unsafe products through the Safety Gate system.

Specific Safety Precautions for Use

- **Handling:** Always handle the bushings with care to avoid injury. Use appropriate tools to avoid slipping or accidental cuts.
- **Installation:** Ensure you are familiar with the installation process before proceeding. Incorrect installation can lead to malfunction or injury.
- **Compatibility:** Confirm that the bushings are compatible with your specific model of the 1911 Government auto before use.
- **Inspection:** Regularly inspect the bushings for wear or damage. Do not use damaged bushings as they may compromise firearm safety.
- **Storage:** Store bushings in a dry and safe place away from children and pets.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your workspace is clean and organized.
- Gather necessary tools: a 7/32" tap drill for bushing installation.

2. Installation:

- Remove the grips from the 1911 Government model carefully.
- If the stock frame bushing is stripped, use the appropriate tap drill to prepare the area for the new bushing.
- Install the new standard or stainless steel (S/S) stock bushing by carefully threading it into place.
- Ensure the bushing is securely in place before reattaching the grips.

3. Usage:

- Once installed, the bushings will enhance grip stability. Always check the fit before use.
- Avoid using excessive force when attaching or detaching grips to prevent stripping the bushings.

Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check for local recycling programs that accept metal products.

Contact Information for Further Support

For additional support, please refer to the retailer from whom you purchased the product. They will provide you with the necessary contact information for any safety inquiries or concerns.

By following these guidelines, you can ensure the safe and effective use of your 1911 Stock Bushings. Thank you for your attention to safety, and enjoy your enhanced firearm experience!
