Safety Instruction Guide for AR15/M16 Ejector Springs

Introduction

Thank you for choosing the AR15/M16 Ejector Springs from Brownells. This guide provides essential safety instructions and information to ensure the safe and effective use of your ejector springs. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that your work area is clean and welllit to prevent accidents during installation.
- Always handle firearms and related components with care and respect. Treat every firearm as if it is loaded.
- Keep the ejector springs and all firearm parts out of reach of children and unauthorized users.
- Inspect the springs for any signs of damage or wear before installation.
- Follow all local laws and regulations regarding firearm modifications and usage.
- Be aware of the potential hazards associated with the use of firearms, including accidental discharge and injury.

Specific Safety Precautions for Use

- Use only the specified AR15/M16 ejector springs for your firearm model to avoid compatibility issues.
- Wear appropriate safety gear, including safety glasses and gloves, when handling and installing firearm components.
- Do not attempt to modify or alter the ejector springs in any way, as this may compromise their performance and safety.
- Ensure that the firearm is completely unloaded before beginning any work on it.
- Do not work on your firearm while under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and placed in a safe position.
- Gather all necessary tools for installation, including a punch tool and a small hammer.

2. Installation:

- Remove the old ejector spring by using a punch tool to push out the retaining pin.
- Carefully remove the old spring and replace it with the new AR15/M16 ejector spring.
- Secure the new spring in place by reinstalling the retaining pin, ensuring it is properly seated.

3. Function Check:

- After installation, conduct a function check of the firearm to ensure proper operation.
- Test the ejector by cycling the action to confirm that it properly ejects spent cartridges.

4. Usage:

- Regularly inspect the ejector springs for wear and replace them as necessary to maintain optimal performance.
- Store the firearm in a secure location when not in use.

Disposal Instructions

- Dispose of old or damaged ejector springs in accordance with local regulations.
- Do not discard springs in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the AR15/M16 ejector springs, please contact the manufacturer or consult a qualified gunsmith. Always refer to the latest safety standards and guidelines.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your AR15/M16 ejector springs. Proper handling and maintenance will enhance the performance of your firearm and contribute to a safer shooting experience. Thank you for your attention to safety.
