AR15/M16 Ejector Springs Safety Instruction Guide

Introduction

Thank you for choosing the AR15/M16 Ejector Springs manufactured by Brownells. This guide provides essential safety instructions to ensure the safe use and handling of the ejector springs. Please read this guide thoroughly before use to maximize safety and product performance.

General Safety Guidelines

- Ensure the product is suitable for your specific firearm model before installation.
- Always handle firearms with care and follow safe handling practices.
- Store the ejector springs in a dry, cool place away from direct sunlight and moisture.
- Keep the product out of reach of children and unauthorized users.
- Regularly check for wear and tear on the ejector springs to maintain optimal performance.
- Report any unsafe products or accidents to the relevant authorities immediately.
- Stay informed about product recalls or safety notices by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as eye protection, when handling firearms and their components.
- Ensure the firearm is unloaded before installing or replacing any components, including the ejector springs.
- Follow manufacturer instructions for installation to avoid improper fitting, which can lead to malfunctions.
- Do not use the ejector springs if they show signs of damage or wear.
- Be cautious of potential pinch points during installation to avoid injury.
- Ensure that all components are securely installed before using the firearm.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation.
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Removal of Old Ejector Spring:

- Disassemble the firearm according to the manufacturer's instructions.
- Locate the old ejector spring and carefully remove it. Note any specific orientation or placement.

3. Installation of New Ejector Spring:

- Take the new AR15 ejector spring and ensure it is free from defects.
- Insert the new ejector spring into the designated location, ensuring it is oriented correctly.
- Consult the firearm's manual if you are unsure about the installation process.

4. Reassembly:

- Reassemble the firearm, ensuring all components are securely in place.
- Perform a function check to confirm proper operation of the ejector mechanism.

5. Usage:

- Use the firearm in accordance with all safety guidelines and local laws.
- Regularly inspect the ejector springs and other components for signs of wear.

Disposal Instructions

- Dispose of old ejector springs responsibly. Check local regulations for proper disposal methods.
- Do not throw the springs in regular trash; consider recycling options if available.

Contact Information for Further Support

For further inquiries or assistance regarding the AR15/M16 Ejector Springs, please reach out to your local dealer or manufacturer's contact point. Ensure you have the product details on hand for efficient support.

By following these guidelines, you can help ensure the safe and effective use of your AR15/M16 Ejector Springs. Thank you for your attention to safety!
