Safety Instruction Guide for Professional Series Barrel Honing Stones

Introduction

Thank you for choosing the Professional Series Barrel Honing Stones by Brownells. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this manual thoroughly before using the honing stones.

General Safety Guidelines

- Always use personal protective equipment (PPE) such as safety goggles and gloves when handling and using the honing stones.
- Keep the honing stones out of reach of children and pets to prevent accidental injury.
- Inspect the honing stones and equipment for any damage before use. Do not use if damaged.
- Ensure that the work area is clean and free from obstructions to prevent accidents.
- Follow all local regulations and guidelines when disposing of used materials.

Specific Safety Precautions for Use

- Use the honing stones only for their intended purpose, which is to polish shotgun bores.
- Avoid using excessive force while honing, as this may damage the barrel or the stones.
- Do not exceed the maximum recommended speed of your honing equipment.
- Ensure proper ventilation in your working area to avoid inhaling dust or particles generated during use.
- If you experience any discomfort or adverse reactions while using the honing stones, discontinue use immediately and consult a medical professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure the shotgun is unloaded and safe to work on.

2. Installation:

- Attach the steel carrier to the Lisle No. 2 Barrel Hone securely.
- Select the appropriate grit stone based on your polishing needs (500 grit for fine polishing).
- Insert the honing stone into the steel carrier, ensuring it is fitted correctly.

3. Usage:

- Position the barrel hone into the shotgun bore carefully.
- Start the honing process at a low speed, gradually increasing as necessary.
- Move the hone back and forth in the barrel, applying gentle pressure.
- Periodically check the progress and ensure the bore is polished to your satisfaction.
- Once finished, remove the honing stones and clean the barrel thoroughly to remove any residual particles.

Disposal Instructions

- Dispose of used honing stones in accordance with local waste disposal regulations.
- Do not dispose of honing stones in regular household waste if they are contaminated with hazardous

materials.

- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Professional Series Barrel Honing Stones, please refer to the contact details provided in the product packaging or visit the manufacturer's website for more information.

Conclusion

Following these safety guidelines and instructions will help ensure a safe and effective experience when using the Professional Series Barrel Honing Stones. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention, and happy honing!
