"Can't Miss" Release Button Aids In Ultra-Fast Magazine Changes

Extended, drop-in replacement for factory part offers a wide, flat finger pad for fast, can't miss magazine changes. Perfect for competition, tactical operations, and self-defense any high-stress situation where the speed of a magazine change makes the difference between success and failure. Nearly three times the surface area of the factory button with crisp, 24 lpi checkering for positive, nonslip finger contact, so you release the mag on the very first try. Stands .225" higher to give you extra leverage that ensures the mag catch disengages completely. Precision machined from 4140 steel and heat treated for added hardness and wear resistance, with a tough, black oxide finish. May require minor fitting.
