

# ROLL PIN PUNCH SET - STANDARD ROLL PIN BENCH BLOCK ONLY

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Tool Storage](#) > [Punch & File Storage Blocks](#)

## Remove & Install Roll Pins The Professional Way

We combined 19 of our most popular roll pin punches and added a handy bench block to come up with the perfect punch set for the busy shop or department armorer. Easily start, remove, and install spring pins and roll pins in firearms without damage to the pin or firearm. Features (5) holder punches, (7) starter punches, and (7) standard punches that can easily handle any job out there. Made from solid steel, with parallel-ground shanks and knurled handles. Also includes a non-marring, nylon drift punch that won't damage or scrape delicate surface finishes. Machined, Delrin® bench block holds and organizes all the punches for easy access. Holder punches cup and hold roll pins, keeping them aligned for easy starting without pinching or binding. Especially good on the tiny, hard-to-grab ones, or those in tight places. Features a 1/16" diameter punch that is notched to clear the M16/AR-15 rear sight, plus a 3.5mm diameter punch for holding the pin that retains the breech block on Sig handguns. Finish driving with a standard roll pin punch. Starter punches are used to start the removal of roll or spring pins without causing damage to the pins or the punch. Short shaft gives more control by putting your hand closer to the pin and prevents bending the longer, standard roll pin punches. Standard punches are used to finish drive the roll pin or spring pin after it's started. Starter and standard roll pin punches feature a special tip that centers inside the hollow pin to help prevent slippage. Complete set includes bench block, also available separately.

# ROLL PIN PUNCH SET SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the ROLL PIN PUNCH SET. This product is designed to assist in the safe and effective removal and installation of roll pins and spring pins in firearms. To ensure your safety and the longevity of the product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the ROLL PIN PUNCH SET in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, welllit, and free from distractions before using the punch set.
- Keep the punch set out of reach of children and unauthorized users.
- Inspect the punch set before each use for any signs of damage or wear. Do not use damaged punches.
- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the punch set.
- Be aware of your surroundings and ensure that no one is in the line of work while using the punches.

## Specific Safety Precautions for Use

- Use the correct punch size for the pin you are working with to prevent damage to the pin or surrounding components.
- Always start with the holder punches to secure the roll pins in place before using starter or standard punches.
- Avoid excessive force when driving pins to prevent bending or breaking the punches.
- Do not use the punches for purposes other than intended. This product is specifically designed for roll pin and spring pin applications.
- Ensure that the bench block is stable and secure before beginning work to prevent slipping.
- When working on firearms, always ensure they are unloaded and in a safe condition.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the ROLL PIN PUNCH SET and the bench block.
- Ensure the work area is organized and free from clutter.

### 2. Using Holder Punches:

- Select the appropriate holder punch for the roll pin diameter.
- Place the holder punch over the roll pin and gently press down to secure the pin in place.

### 3. Using Starter Punches:

- Choose the correct starter punch size for the roll pin.
- Position the starter punch in the holder punch and apply gentle pressure to begin driving the pin out or into place.
- Maintain control of the punch to avoid slipping.

### 4. Using Standard Punches:

- After starting the pin with a starter punch, switch to the standard punch to finish driving the pin into place.
- Ensure the punch is aligned with the pin to prevent damage.

## 5. **PostUse:**

- After use, clean the punches and bench block to remove any debris or residue.
- Store the punch set in a safe location, preferably in its designated storage area.

## **Disposal Instructions**

- Dispose of any damaged or broken punches according to local regulations.
- If the product is no longer needed, consider recycling materials where applicable.
- Ensure that the product is disposed of in a manner that prevents harm to the environment.

## **Contact Information for Further Support**

For safety inquiries or support, please reach out to the appropriate contact provided by the manufacturer. Ensure to check for any product recalls or safety updates through the EU's Safety Gate platform.

By following these safety instructions, you can ensure a safe and effective experience with your ROLL PIN PUNCH SET. Thank you for your attention to safety.
