

HARD FIT CURL SCRAPERS - CURVED 1/4" CURL SCRAPER

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Wood Scrapers](#)

For That Final, "Like It Grew There" Fit

Made to remove the tiniest possible curl of wood to get that exact fit that separates "Pros" from "duds". Handles are placed at right angles to the cutting edge; you get complete control of the edge and almost no tendency to follow wood grain, gouge or dig in. Made of best quality tempered tool steel, with enough heft to eliminate any "flexing". Shaped for positive fingertip control of blade thru full stroke. Finger clearance under the handle for tight places. Available in 2 styles - 3 blade widths. Sizes small enough for trigger hole; big enough for barrel channel. Flat ones perfect for fitting floor plates, tangs, magazines. Not intended to rough out barrel channel, so don't bear down. Just draw toward you across work. Makes the most beautiful curls and dust; yet won't work-harden wood as do rasps, or leave grit to ruin tool edges as does sandpaper. Without a doubt, the best tool ever designed for the fine, controlled removal of the inletting black and that "whisker" of wood underneath!

HARD FIT CURL SCRAPERS CURVED 1/4" CURL SCRAPER Safety Instruction Guide

Introduction

Thank you for choosing the HARD FIT CURL SCRAPERS CURVED 1/4" CURL SCRAPER. This tool is designed for precise wood shaping and finishing, ensuring a highquality result for your woodworking projects. To ensure your safety and the effective use of this product, please read this safety instruction guide carefully.

General Safety Guidelines

- Always read and understand all safety instructions before using the tool.
- Ensure that the workspace is clean and free of any hazards that could cause accidents.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use to ensure it is in good working condition.
- Use the tool only for its intended purpose as described in this manual.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves to protect against wood splinters and dust.
- Ensure that your hands are dry and free of oils or substances that could cause slipping while using the tool.
- Avoid using the scraper on wet or damp wood, as this can lead to slipping and potential injury.
- Do not apply excessive force when using the scraper; let the tool do the work to avoid accidents.
- Maintain a firm grip on the handle while in use to ensure maximum control.
- Always cut away from your body to prevent injury in case of slips.
- Do not use the scraper if you are tired or distracted, as this can lead to mistakes and accidents.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is welllit and organized.
- Select the appropriate blade width for your project (1/4", 3/8", or 1/2").

2. Using the Tool:

- Hold the scraper with both hands, ensuring your fingers are clear of the blade.
- Position the scraper at the desired angle against the wood surface.
- Apply gentle pressure and draw the scraper towards you in a smooth motion.
- Avoid pressing down too hard; the tool is designed for fine control.
- For tight spaces, use the finger clearance under the handle to maneuver effectively.

3. PostUse Care:

- Clean the scraper after each use to remove wood shavings and dust.
- Store the tool in a safe place, away from children and moisture.
- Regularly check for any signs of damage or wear and replace as necessary.

Disposal Instructions

- Dispose of this product in accordance with local regulations.
- Do not dispose of the tool in regular household waste.
- Consider recycling options if available in your area.
