

HARD FIT CURL SCRAPERS - BROWNELLS CURVED 3/8" CURL SCRAPER

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Wood Scrapers](#)

For That Final, "Like It Grew There" Fit

Made to remove the tiniest possible curl of wood to get that exact fit that separates "Pros" from "duds". Handles are placed at right angles to the cutting edge; you get complete control of the edge and almost no tendency to follow wood grain, gouge or dig in. Made of best quality tempered tool steel, with enough heft to eliminate any "flexing". Shaped for positive fingertip control of blade thru full stroke. Finger clearance under the handle for tight places. Available in 2 styles - 3 blade widths. Sizes small enough for trigger hole; big enough for barrel channel. Flat ones perfect for fitting floor plates, tangs, magazines. Not intended to rough out barrel channel, so don't bear down. Just draw toward you across work. Makes the most beautiful curls and dust; yet won't work-harden wood as do rasps, or leave grit to ruin tool edges as does sandpaper. Without a doubt, the best tool ever designed for the fine, controlled removal of the inletting black and that "whisker" of wood underneath!

HARD FIT CURL SCRAPERS Safety Instruction Guide

Introduction

Thank you for choosing the HARD FIT CURL SCRAPERS BROWNELLS CURVED 3/8" CURL SCRAPER. This tool is designed to provide precision in wood shaping, ensuring a perfect fit for your projects. To ensure your safety and the optimal use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the scraper in a welllit and clean workspace.
- Keep the scraper out of reach of children and vulnerable individuals.
- Inspect the scraper before each use for any signs of damage or wear.
- Use the scraper only for its intended purpose as described in this guide.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the scraper.

Specific Safety Precautions for Use

- **Cutting Edge Safety:** The blade is sharp. Handle with care to avoid cuts or injuries.
- **Grip:** Always hold the scraper by the handle, ensuring a firm grip to maintain control.
- **Wood Grain Direction:** Always cut in the direction of the wood grain to prevent splintering and to achieve better results.
- **Pressure:** Do not apply excessive pressure while scraping. Let the tool do the work to avoid injury or damage to the wood.
- **Storage:** Store the scraper in a safe location, preferably in a protective case, to prevent accidental injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure the work area is clear of any obstacles.
- Select the appropriate blade width for your project ($\frac{1}{4}$ ", $\frac{3}{8}$ ", or $\frac{1}{2}$ ").

2. Using the Scraper:

- Hold the scraper firmly by the handle.
- Position the blade at the desired angle against the wood surface.
- Draw the scraper towards you in a smooth motion, applying light pressure.
- Avoid gouging the wood by maintaining control of the blade.

3. PostUse Care:

- Clean the blade after each use to remove wood shavings and prevent rust.
- Inspect the scraper for any damage or dullness. Sharpen or replace as necessary.

Disposal Instructions

- Dispose of the scraper responsibly. If damaged or no longer usable, follow local regulations for disposing of metal tools.
- Ensure that the scraper is not accessible to children during disposal.

Contact Information for Further Support

For any inquiries regarding safety or usage of the HARD FIT CURL SCRAPERS, please refer to the manufacturer's contact information provided with your product.

By following these guidelines, you can ensure a safe and effective experience while using the HARD FIT CURL SCRAPERS. Always prioritize safety and proper handling to achieve the best results in your woodworking projects.
