

HARD FIT CURL SCRAPERS - CURVED 1/2" CURL SCRAPER

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Wood Scrapers](#)

For That Final, "Like It Grew There" Fit

Made to remove the tiniest possible curl of wood to get that exact fit that separates "Pros" from "duds". Handles are placed at right angles to the cutting edge; you get complete control of the edge and almost no tendency to follow wood grain, gouge or dig in. Made of best quality tempered tool steel, with enough heft to eliminate any "flexing". Shaped for positive fingertip control of blade thru full stroke. Finger clearance under the handle for tight places. Available in 2 styles - 3 blade widths. Sizes small enough for trigger hole; big enough for barrel channel. Flat ones perfect for fitting floor plates, tangs, magazines. Not intended to rough out barrel channel, so don't bear down. Just draw toward you across work. Makes the most beautiful curls and dust; yet won't work-harden wood as do rasps, or leave grit to ruin tool edges as does sandpaper. Without a doubt, the best tool ever designed for the fine, controlled removal of the inletting black and that "whisker" of wood underneath!

HARD FIT CURL SCRAPERS CURVED 1/2" CURL SCRAPER Safety Instruction Guide

Introduction

Thank you for choosing the HARD FIT CURL SCRAPERS CURVED 1/2" CURL SCRAPER. This tool is designed for the precise removal of wood curls, ensuring a professional finish for your woodworking projects. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the tool as intended, following the instructions provided in this guide.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the tool before each use for any signs of damage or wear.
- Store the tool in a dry place to prevent rust and deterioration.
- Report any unsafe product incidents or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against wood splinters and debris.
- Ensure your workspace is clean and welllit to avoid accidents.
- Always cut away from your body to minimize the risk of injury.
- Do not apply excessive force when using the scraper; let the tool do the work to avoid gouging the wood.
- Be cautious when using the scraper in tight spaces; ensure your fingers are clear of the cutting edge.
- Do not use the scraper on materials other than wood, as this may damage the tool and pose safety risks.

Instructions for Installation and Usage

1. Preparation:

- Ensure the workspace is clean and wellorganized.
- Gather all necessary materials, including the HARD FIT CURL SCRAPER and any protective equipment.

2. Using the Tool:

- Hold the scraper by the handle, ensuring your fingers are positioned away from the cutting edge.
- Position the blade against the wood surface at the desired angle.
- Apply gentle pressure and draw the scraper towards you in a smooth motion.
- Repeat as necessary, adjusting the angle and pressure to achieve the desired curl thickness.

3. PostUsage Care:

- Clean the scraper after use with a dry cloth to remove any wood dust.
- Store the scraper in a protective case or sheath to prevent damage to the blade and ensure safety during storage.

Disposal Instructions

- Dispose of the tool responsibly at a designated waste disposal facility.
- Do not dispose of the tool in regular household waste.

- Follow local regulations for the disposal of metal tools.

Contact Information for Further Support
