Choose From Our Selection of Handles

BROWNELLS MAGNA-TIP® & SUPER SET SCREWDRIVER HANDLES The Brownells Magna-Tip® & Super Set Screwdriver Handles are expertly designed to provide gunsmiths and firearm enthusiasts with versatile and durable options for various firearm maintenance tasks. Each handle is constructed from tough, nearly unbreakable plastic, ensuring longevity and reliability in demanding environments. The steel, hex shank accepts a small wrench for added leverage, enhancing torque application when needed. Key Features: #81 Handle: A rugged, hand-filling design equipped with a powerful magnet for fast bit changes. The magnetism transfers through the bit to hold the screw securely, facilitating efficient and precise work. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. #84 Hollow Handle: Features a magnetic shank with a hollow compartment that accepts up to four bits, allowing Customers to create a custom screwdriver kit for specific firearms. A screw-on cap keeps the bits securely in place. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. Law Enforcement Handle: Developed at the request of police armorers, this handle is approximately 20% shorter and has a smaller diameter than the #81 Handle, bringing the user's hand closer to the work for enhanced control. Available in both magnetic and Clip-Tip styles for secure bit retention. Dimensions: 1" (2.5 cm) diameter, 3¾" (9.5 cm) handle length, 5½" (14 cm) overall length. Stubby Handle: A compact version of the full-size #81 Magnetic Handle, ideal for working in tight spaces. Despite its shorter length, it maintains super-strong construction for durability. Dimensions: 1" (2.5 cm) diameter handle, 2½" (6.3 cm) overall length. Law Enforcement Hollow Handle: Combines the short shank of the Law Enforcement Handle with the convenient storage compartment and full-size grip of the #84 Hollow Handle, allowing Customers to assemble a gun-specific, portable screwdriver kit suitable for both shop and field use. The magnetic socket allows for fast bit changes. Customer Insights: Our customers appreciate the Brownells Magna-Tip® & Super Set Screwdriver Handles for their robust construction and thoughtful design. The variety of handle options allows Customers to select the most appropriate tool for specific tasks, enhancing precision and control during firearm maintenance. The magnetic features and bit storage capabilities are particularly valued for their convenience and efficiency in both shop and field settings. Incorporating the Brownells Magna-Tip® & Super Set Screwdriver Handles into your toolkit ensures you have the right handle for any gunsmithing task, providing versatility, durability, and enhanced control for precise firearm maintenance.

Safety Instruction Guide for MAGNATIP® & SUPER SET SCREWDRIVER HANDLES

Introduction

Thank you for choosing the Brownells MagnaTip® & Super Set Screwdriver Handles. Designed for gunsmiths and firearm enthusiasts, these tools provide versatility and durability for various firearm maintenance tasks. This guide outlines essential safety instructions to ensure safe and effective use of the product, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure the screwdriver handles are used only for their intended purpose.
- Keep the tools out of reach of children and vulnerable individuals.
- Regularly inspect the screwdriver handles for any signs of wear or damage before use.
- Do not use the screwdriver handles if they show signs of damage or if the magnetic features are compromised.
- Report any unsafe products or incidents to local authorities and check for recall updates.

Specific Safety Precautions for Use

- **Magnetic Features:**
 - Keep metallic objects away from the magnetic areas to prevent unintended attraction and potential injury.
 - Be cautious when using the magnetic features near electronic devices.
- **Bit Changes:**
 - Always ensure the screwdriver bit is securely attached before use to prevent accidents.
 - Use caution when changing bits to avoid pinching fingers or hands.
- **Handling:**
 - Use the handles with care, applying appropriate force as needed. Excessive force may lead to tool failure or injury.
 - Avoid using the screwdriver handles in environments where they may be exposed to extreme temperatures or corrosive substances.
- **Storage:**
 - Store the screwdriver handles in a dry, cool place away from direct sunlight to maintain their integrity.
 - Ensure that the handles are stored in a manner that prevents them from falling or being damaged.

Instructions for Installation and Usage

- **Using the #81 Handle:**
 - Grip the handle firmly, ensuring your hand is in contact with the textured surface for better control.
 - To change the bit, pull the bit out of the magnetic socket and insert the new bit until it clicks into place.

- **Using the #84 Hollow Handle:**

- Unscrew the cap to access the internal compartment.
- Insert up to four bits into the compartment and securely fasten the cap to prevent bits from falling out.
- Follow the same procedure for attaching and detaching bits as with the #81 Handle.

- **Using the Law Enforcement Handle:**

- Hold the handle firmly and position it close to the work area for better control.
- Choose either the magnetic or ClipTip style based on your preference for bit retention.

- **Using the Stubby Handle:**

- This compact handle is ideal for tight spaces. Ensure you have a firm grip and apply appropriate force when turning screws.

- **Using the Law Enforcement Hollow Handle:**

- This handle combines the features of the Law Enforcement Handle and the #84 Hollow Handle for versatile use.
- Ensure that bits are securely stored and follow the same bit change procedure.

Disposal Instructions

- Dispose of the screwdriver handles responsibly in accordance with local regulations.
- Do not dispose of the handles in regular household waste if they are damaged or contain hazardous materials.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding safety concerns or product support, please refer to the manufacturer's contact details provided with your product packaging or visit the official website. Always ensure you have the latest information regarding safety recalls or product updates.

By following these safety instructions, you can ensure the effective and safe use of your Brownells MagnaTip® & Super Set Screwdriver Handles. Thank you for your attention to these important guidelines.
