Choose From Our Selection of Handles

BROWNEILLS MAGNA-TIP® & SUPER SET SCREWDRIVER HANDLES The Brownells Magna-Tip® & Super Set Screwdriver Handles are expertly designed to provide gunsmiths and firearm enthusiasts with versatile and durable options for various firearm maintenance tasks. Each handle is constructed from tough, nearly unbreakable plastic, ensuring longevity and reliability in demanding environments. The steel, hex shank accepts a small wrench for added leverage, enhancing torque application when needed. Key Features: #81 Handle: A rugged, hand-filling design equipped with a powerful magnet for fast bit changes. The magnetism transfers through the bit to hold the screw securely, facilitating efficient and precise work. Dimensions: 1 1/4" (3.2 cm) diameter, 8" (20.3 cm) overall length. #84 Hollow Handle: Features a magnetic shank with a hollow compartment that accepts up to four bits, allowing Customers to create a custom screwdriver kit for specific firearms. A screw-on cap keeps the bits securely in place. Dimensions: 1 1/4" (3.2 cm) diameter, 8" (20.3 cm) overall length. Law Enforcement Handle: Developed at the request of police armorers, this handle is approximately 20% shorter and has a smaller diameter than the #81 Handle, bringing the user's hand closer to the work for enhanced control. Available in both magnetic and Clip-Tip styles for secure bit retention. Dimensions: 1" (2.5 cm) diameter, 3 3/4" (9.5 cm) handle length, 5 1/2" (14 cm) overall length. Stubby Handle: A compact version of the full-size #81 Magnetic Handle, ideal for working in tight spaces. Despite its shorter length, it maintains super-strong construction for durability. Dimensions: 1" (2.5 cm) diameter handle, 2 1/2" (6.3 cm) overall length. Law Enforcement Hollow Handle: Combines the short shank of the Law Enforcement Handle with the convenient storage compartment and full-size grip of the #84 Hollow Handle, allowing Customers to assemble a gun-specific, portable screwdriver kit suitable for both shop and field use. The magnetic socket allows for fast bit changes. Customer Insights: Our customers appreciate the Brownells Magna-Tip® & Super Set Screwdriver Handles for their robust construction and thoughtful design. The variety of handle options allows Customers to select the most appropriate tool for specific tasks, enhancing precision and control during firearm maintenance. The magnetic features and bit storage capabilities are particularly valued for their convenience and efficiency in both shop and field settings. Incorporating the Brownells Magna-Tip® & Super Set Screwdriver Handles into your toolkit ensures you have the right handle for any gunsmithing task, providing versatility, durability, and enhanced control for precise firearm maintenance.

MAGNATIP® & SUPER SET SCREWDRIVER HANDLES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the MAGNATIP® & SUPER SET SCREWDRIVER HANDLES by BROWNELLS. This guide provides essential safety information and usage instructions to ensure your safe and effective use of these tools. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure that the screwdriver handles are used only for their intended purpose.
- Keep the screwdriver handles out of reach of children to avoid accidents.
- Inspect the handles for any damage before use. Do not use if damaged.
- Always use the correct size and type of bit for the handle to prevent injury or tool damage.
- Store the screwdriver handles in a dry place to avoid deterioration of materials.
- Do not modify the screwdriver handles in any way.

Specific Safety Precautions for Use

- **Handling:** Always grip the handle firmly while using. Avoid using excessive force that may lead to slipping or injury.
- **Magnetism:** The magnetic features of the handles can attract metal objects. Be cautious of nearby metal items that may interfere with safe usage.
- **Bit Changes:** Ensure the bit is securely attached before use. Follow instructions for fast bit changes to avoid accidents.
- **Storage:** When not in use, store the tools in their designated storage area to prevent loss and damage.
- **Environmental Conditions:** Avoid using the screwdriver handles in wet or damp conditions to maintain safety and tool integrity.

Instructions for Installation and Usage

1. Selecting the Right Handle:

- Choose the appropriate handle based on your task:
 - #81 Handle for rugged use and quick bit changes.
 - #84 Hollow Handle for custom screwdriver kits.
 - Law Enforcement Handle for longer reach and secure grip.
 - Stubby Handle for tight spaces.
 - Law Enforcement Hollow Handle for compact storage and accessibility.

2. Attaching Bits:

- For the #81 Handle:
 - Select a bit from #4451 to #4454.
 - Insert the bit into the magnetic shank until securely held.
- For the #84 Hollow Handle:
 - Use the included bits (#4451, #4452, #4453, #4454).
 - Insert the bits into the hollow handle and secure with the screwon cap.

3. Using the Screwdriver Handles:

- Hold the handle firmly.

- Align the bit with the screw.
- Apply steady pressure while turning the handle to drive or remove the screw.

4. Changing Bits:

- To change bits, pull the bit straight out of the magnetic shank.
- Insert a new bit and ensure it is securely held by the magnet.

5. Cleaning and Maintenance:

- Wipe the handles with a dry cloth after use.
- Do not immerse in water or cleaning solutions.

Disposal Instructions

- Dispose of the screwdriver handles according to local regulations.
- If the handles are damaged or no longer usable, consider recycling the plastic and metal components where facilities exist.
- Ensure that any magnetic components are disposed of responsibly to avoid environmental impact.

Contact Information for Further Support

For any safety inquiries, product support, or to report unsafe products, please reach out to the designated contact point in your EU country. Always refer to local authorities for guidance on product safety and recalls.

By following these guidelines, you can ensure safe and effective use of your MAGNATIP® & SUPER SET SCREWDRIVER HANDLES. Thank you for your attention to safety.
