

BOLT LAPPING TOOLS - BOLT TOOL BODY & M14/M1A LARGE PLUNGER ONLY

[Gunsmith Tools & Supplies](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Bolt Lapping Tools](#)

Interchangeable Design Gives Constant Spring Pressure For Precise Mating Of Locking Lug Recesses

Spring-loaded tool gives constant, straight-back pressure to keep bolt lugs square against the receiver while lapping with 600 to 800 grit, silicon carbide abrasive. Provides better results than mere thumb pressure. Interchangeable threaded sleeves fit popular actions listed below.

BOLT LAPPING TOOLS SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the BOLT LAPPING TOOLS BOLT TOOL BODY & M14/M1A LARGE PLUNGER ONLY. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the tool.

General Safety Guidelines

- Ensure safe use of the BOLT LAPPING TOOLS by following these guidelines:
 - Always use the tool as intended and according to the manufacturer's instructions.
 - Keep the tool out of reach of children and vulnerable individuals.
 - Regularly inspect the tool for any signs of damage or wear. Do not use if damaged.
 - Store the tool in a dry, safe location when not in use.
 - Use appropriate personal protective equipment (PPE) such as safety glasses and gloves while operating the tool.
 - Be aware of your surroundings and ensure a clean workspace to prevent accidents.

Specific Safety Precautions for Use

- When using the BOLT LAPPING TOOLS, please adhere to the following safety precautions:
 - Avoid applying excessive force while using the tool to prevent injury.
 - Do not use the tool on any models not specified in the product description.
 - Ensure that all interchangeable threaded sleeves are securely attached before use.
 - Always use the correct sleeve for the specific model to avoid tool failure or injury.
 - Follow the recommended grit specifications (600 to 800 grit) for lapping to achieve optimal results.
 - If you experience any unusual behavior or noise from the tool, stop using it immediately and inspect for issues.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before beginning the lapping process.
- Ensure that the workspace is clean and free from obstructions.

2. Installation of Sleeves:

- Select the appropriate threaded sleeve for your action model (M14, M1A, etc.).
- Screw the sleeve securely onto the bolt tool body until tight.

3. Using the Tool:

- Insert the plunger into the sleeve and ensure it is properly seated.
- Apply springloaded pressure by pulling back the plunger while keeping bolt lugs square against the receiver.
- Use a lapping compound with the recommended grit size (600 to 800 grit).
- Move the tool in a straightback motion to lap the bolt lugs effectively.
- Periodically check the progress and adjust pressure as necessary.

4. PostUse Care:

- After use, clean the tool and sleeves to remove any lapping compound residue.

- Store the tool in a safe place away from children and pets.

Disposal Instructions

- Dispose of any worn or damaged tools in accordance with local regulations.
- Do not dispose of tools in regular household waste. Instead, take them to a designated recycling or hazardous waste facility if applicable.

Contact Information for Further Support

- For any safety inquiries or support, please refer to the manufacturer's contact details provided with the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the BOLT LAPPING TOOLS BOLT TOOL BODY & M14/M1A LARGE PLUNGER ONLY. Always prioritize safety and proper usage to achieve the best results. Thank you for your attention, and enjoy your tool!
