

BOLT LAPPING TOOLS - BROWNELLS 2-PIECE BOLT LAPPING KIT FOR WINCHESTER 70

[Gunsmith Tools](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Bolt Lapping Tools](#)

Interchangeable Design Gives Constant Spring Pressure For Precise Mating Of Locking Lug Recesses

Spring-loaded tool gives constant, straight-back pressure to keep bolt lugs square against the receiver while lapping with 600 to 800 grit, silicon carbide abrasive. Provides better results than mere thumb pressure. Interchangeable threaded sleeves fit popular actions listed below.

Safety Instructions for BOLT LAPPING TOOLS

BROWNELLS 2PIECE BOLT LAPPING KIT FOR WINCHESTER 70

Introduction

Thank you for choosing the BOLT LAPPING TOOLS BROWNELLS 2PIECE BOLT LAPPING KIT FOR WINCHESTER 70. This guide provides important safety instructions and information to ensure the safe and effective use of this product. Please read this document carefully before using the kit.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as outlined in this manual.
- Always follow the manufacturer's instructions for safe operation and maintenance.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the kit for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the tool in a wellventilated area to avoid inhalation of any dust or particles generated during use.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to protect against debris and abrasives.
- Do not exceed the recommended grit levels (600 to 800 grit) to prevent damage to the tool or the firearm.
- Ensure that the bolt lapping tool is securely attached to the appropriate sleeve before use.
- Avoid using excessive force when lapping to maintain the integrity of the bolt lugs and receiver.
- Never use the tool if it is damaged or malfunctioning.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary components from the kit: bolt tool body, plunger, and the correct size sleeve for your model.
- Ensure that the firearm is unloaded and in a safe condition before beginning any work.

2. Assembly

- Select the appropriate threaded sleeve based on the firearm model (e.g., M14/M1A, Mauser, Savage).
- Attach the sleeve to the bolt tool body by threading it securely.
- Insert the plunger into the tool body, ensuring it is properly seated.

3. Lapping Process

- Apply a small amount of silicon carbide abrasive to the bolt lugs.
- Insert the bolt into the receiver and ensure it is properly aligned.
- Activate the springloaded mechanism to apply constant, straightback pressure while lapping.
- Move the tool back and forth gently to achieve an even lap on the bolt lugs.
- Periodically check the progress and clean any excess abrasive from the lugs.

4. PostUse Care

- Clean the tool and sleeves after use to remove any debris or abrasive material.
- Store the kit in a dry place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any used abrasives and wornout components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please reach out to the designated EU contact point. Ensure you have the product details available for quicker assistance.

By following these safety instructions, you can ensure a safe and effective experience with the BOLT LAPPING TOOLS BROWNELLS 2PIECE BOLT LAPPING KIT FOR WINCHESTER 70. Thank you for your attention to safety.
