State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

BROWNELLS STANDARD MAGNA-TIP SETS The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. **Key Features:** **Comprehensive Bit Selection:** Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. **True Hollow-Ground Bits:** The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. **Durable Construction:** Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. **Ergonomic Handle Design:** The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. **Shockproof plastic with grooved flutes** **Specifications:** #1 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. #2 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. #3 Standard Kit Includes the Magna-Tip handle of your choice. 11 slotted bits. Included the box and tray for organized storage and easy access. **Customer Insights:** Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

Safety Instruction Guide for Brownells Standard MagnaTip® Sets

Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the tools.

General Safety Guidelines

- Always use the tools in accordance with the manufacturer's instructions.
- Ensure that your work area is clean, welllit, and free from distractions.
- Keep the tools out of reach of children and vulnerable individuals.
- Inspect the tools for any damage or wear before use. Do not use damaged tools.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, to protect against potential hazards.
- Do not use the tools for purposes other than those intended.
- Store the tools in a safe and dry place when not in use.

Specific Safety Precautions for Use

- Ensure that the bit is securely attached to the handle before use.
- Use the correct bit size for the screw to avoid slipping and damaging the screw or tool.
- Apply steady pressure when using the tools to maintain control and prevent injury.
- Avoid using excessive force, which can lead to tool damage or personal injury.
- Be cautious of sharp edges on bits and components.
- Keep fingers and hands clear of moving parts during use.
- If you experience any discomfort or pain while using the tools, stop immediately and consult a professional.

Instructions for Installation and Usage

1. Selecting the Bit:

- Choose the appropriate bit for your application from the provided selection.
- Ensure that the bit matches the screw type and size.

2. Attaching the Bit:

- Insert the selected bit into the MagnaTip handle.
- Ensure it clicks into place securely.

3. Using the Tool:

- Position the bit into the screw slot.
- Apply gentle pressure and turn the handle clockwise to tighten or counterclockwise to loosen.
- Maintain a steady grip on the handle for better control.

4. Storing the Tools:

- After use, clean the bits and handle to remove any debris.
- Store the bits and handle in the provided box and tray for organized storage.

- Ensure that the storage area is dry and secure.

Disposal Instructions

- Dispose of the tools in accordance with local regulations.
- Do not dispose of the tools in regular household waste.
- Consider recycling options if available.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the Brownells Standard MagnaTip® Sets, please reach out to your local distributor or the manufacturer's customer support.

Thank you for prioritizing safety while using the Brownells Standard MagnaTip® Sets. Your adherence to these guidelines will help ensure a safe and effective experience.
