

SHOTGUN SIGHT KIT "A" - BROWNELLS SHOTGUN SIGHT KIT "A"

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

Brownells Shotgun Sight Kit "A" Safety Instructions

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "A." This guide provides essential safety instructions to ensure the safe use and handling of the product. Please read this manual carefully before using the kit to avoid any potential hazards.

General Safety Guidelines

- Always use the shotgun sight kit in accordance with the manufacturer's instructions.
- Inspect all components for damage or defects before use. Do not use damaged parts.
- Keep the kit out of reach of children and pets to prevent accidental injury.
- Store the kit in a dry, cool place when not in use to protect it from environmental damage.
- Be aware of your surroundings while using the sights to avoid accidents.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Always wear appropriate eye protection when working with firearms and tools.
- Use caution when handling small parts to avoid choking hazards, especially around children.
- Do not attempt to modify or alter the sights beyond the provided specifications.
- Follow all local laws and regulations regarding firearm modifications and usage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded.
- Gather all necessary tools, including a suitable drill and tap if required.

2. Selecting the Sight:

- Choose the appropriate shank size (356 or 648) based on your firearm's threaded sight hole.
- Select the desired bead size (.067, .130, or .175) and color (Gold or White).

3. Installation:

- If a new hole is needed, carefully drill and tap the appropriate size hole into the barrel of the firearm.
- Thread the chosen sight onto the firearm's shank until it is securely in place.
- Ensure that the sight is straight and properly aligned.

4. Final Checks:

- Doublecheck that all components are secure before using the firearm.
- Test the sight alignment in a safe environment to ensure proper function.

Disposal Instructions

- Dispose of any damaged or unused parts in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, take it to a designated recycling center if

available.

- Ensure that all materials are disposed of safely to avoid environmental harm.

Contact Information for Further Support

For any questions or concerns regarding the Brownells Shotgun Sight Kit "A," please refer to the manufacturer's contact information provided on the packaging or visit the official Brownells website.

By following these safety instructions, you can ensure a safe and effective experience with the Brownells Shotgun Sight Kit "A." Thank you for your attention to safety.
