

SHOTGUN SIGHT KIT "A" - SHOTGUN SIGHT BRASS REFILL SIGHT #4 SINGLE

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

SHOTGUN SIGHT KIT "A" Safety Instruction Guide

Introduction

Thank you for purchasing the Brownells Shotgun Sight Kit "A." This guide provides essential safety instructions and information to ensure the safe use of this product. Please read this manual carefully before using the product to avoid any risks associated with improper handling or installation.

General Safety Guidelines

To ensure safe usage of the Shotgun Sight Kit "A," please adhere to the following guidelines:

- Always handle the product with care to prevent injury.
- Inspect the sights for any visible damage before use.
- Ensure that the shotgun is unloaded before installing or adjusting the sights.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to relevant authorities.

Specific Safety Precautions for Use

When using the Shotgun Sight Kit "A," take the following precautions:

- Use the sights only for the intended purpose as specified in this guide.
- Ensure that you are using the correct size and type of sight for your shotgun.
- Avoid using excessive force when installing or adjusting the sights to prevent damage.
- Always wear appropriate safety gear, such as eye protection, when working with firearms.
- If unsure about installation or usage, consult a qualified gunsmith.

Instructions for Installation and Usage

Follow these steps for the proper installation and usage of the sights in the Shotgun Sight Kit "A":

1. Preparation:

- Ensure the shotgun is completely unloaded.
- Gather necessary tools, including a drill and tap if required.

2. Choosing the Right Sight:

- Select the appropriate shank size (356 or 648) based on your shotgun's specifications.
- Choose a bead size (0.067, 0.130, or 0.175) and color (Gold or White) that suits your preference.

3. Installation:

- If there is an existing sight, remove it carefully.
- If no hole exists, drill a new hole using the 648 size drill and tap.
- Thread the chosen sight onto the shotgun barrel, ensuring a snug fit.
- Align the sight properly for optimal accuracy.

4. Final Checks:

- Once installed, check the sight's stability and alignment.
- Test the shotgun to ensure the sight is functioning correctly.

Disposal Instructions

When disposing of the Shotgun Sight Kit “A” or its components, follow these guidelines:

- Do not dispose of the product in regular household waste.
- Check local regulations for proper disposal methods of metal and plastic components.
- If the product is damaged or no longer usable, consider recycling materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the Shotgun Sight Kit “A,” please reach out to the manufacturer or consult a qualified gunsmith.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit “A.” Thank you for your attention to safety.
