A Total Of 80 Precision, Economical, Good-Looking, Replacement Shotgun Beads

Brownells Shotgun Sight Kit "B" is the most important improvement in the replacement shotgun sight field since the introduction of the original Brownells Shotgun Sight Kit nearly 20 years ago. The new Kit is truly the natural and logical companion to the original Kit "A" - giving you, the gunsmithing or sports shop, all the sights that Kit "A" doesn't contain, but that you need to have a really versatile and complete replacement shotgun sight inventory in just 2 small boxes. Plus, in Kit "B", we took the practical step of making the White beads out of stainless steel. Stainless is stronger, won't crush or distort when the beads are installed, does not have to be removed when the gun goes into the hot bluing solution (and won't dissolve and ruin your bluing bath once it's in there)!! Plus, the stainless won't break off at the top of the shank, stays shiny forever, stands up to tougher use in the field, and generally is one whale of a lot better sight. But, the real advantage of Kit "B" is that by combining it with Kit "A", you can now have a selection of shank sizes unequaled among shotgun sights. So, if you get a gun in your shop with a badly misshapen, worn or stripped-out sight hole, you will have a bead of exactly the same size, but with a shank one size larger. Replacement is then just a simple matter of drilling out the hole to the next size larger, tapping, and inserting the new bead. The most important thing is that the Kit saves you time, giving faster work turnaround in the shop, which makes you more money. It also eliminates "patching-up" the original hole (which often then requires repairing the blue, too) and re-drilling and tapping for the original size shank. And, it gets your customer back in the field sooner which makes him happy, and makes you look good! Like the original Kit "A", the workmanship is superb, the sight globes are true spheres, the threads are cut onto the shank, so they are clean, sharp, and give the best possible fit. And, they are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Thread sizes are 6-48 and 8-40; certainly two of the most common and popular thread sizes in the gun industry, so everyone has the necessary drills and taps. The bead sizes are .067, .130 and .175, again the most popular sizes, and the same as those used in Kit "A". The Gold beads are machined from finest brass; the White beads from tough stainless steel. Because these are solid metal beads, they cannot bleed, chip, peel or have the color wear off. As the companion to Kit "A", Kit "B" also comes in a clear plastic counter case. Each individual sight number is in its own clearly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 new sights. By itself, a complete inventory of 3 very popular sizes in 2 colors, with 6-48 and 8-40 shanks; but as a companion to Kit "A", an unbeatable assortment of the most versatile and useful shotgun sight beads available anywhere. And, right at your fingertips, ready to install for your customers. Order your Brownells Shotgun Sight Kit "B" today. Refill Sights for Kit "B" - Refills for the Shotgun Sight Kit "B" are single or 10-pak of sights of one number.

Safety Instruction Guide for SHOTGUN SIGHT KIT "B"

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "B." This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before installation and usage.

General Safety Guidelines

- Always handle the shotgun sight components with care to avoid injury.
- Ensure that the product is used only for its intended purpose as specified in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- In case of any product-related incidents or accidents, report them to the appropriate authorities.

Specific Safety Precautions for Use

- Use only in well-lit areas to avoid accidents during installation.
- Wear protective eyewear when installing or modifying shotgun sights.
- Ensure that the shotgun is unloaded and pointed in a safe direction during installation.
- Do not attempt to modify or alter the shotgun sight components in any way.
- If you experience difficulty during installation, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including drills and taps suitable for thread sizes 648 and 840.
- Ensure that you have the correct replacement bead size (.067, .130, or .175) based on your shotgun model.

2. Installation Steps:

- Unload the shotgun and ensure it is pointed in a safe direction.
- Remove the existing sight bead if applicable, by drilling out the old bead carefully.
- Select the appropriate size bead from the Shotgun Sight Kit "B."
- Drill out the sight hole to the next size larger if necessary, ensuring a clean hole.
- Tap the hole to create threads for the new bead.
- Insert the new bead into the threaded hole, ensuring it is secure and properly aligned.
- Check for stability and ensure the bead is firmly in place before using the shotgun.

3. Post-Installation:

- Conduct a visual inspection to ensure that the sight is correctly installed.
- Test the shotgun in a safe environment to ensure proper sight alignment and function.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If you need to dispose of the shotgun sight components, check with local waste management authorities for proper disposal methods to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the installation or usage of the Brownells Shotgun Sight Kit "B," please refer to the manufacturer or retailer from whom you purchased the product.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy using your new shotgun sight kit responsibly!
