A Total Of 80 Precision, Economical, Good-Looking, Replacement Shotgun Beads

Brownells Shotgun Sight Kit "B" is the most important improvement in the replacement shotgun sight field since the introduction of the original Brownells Shotgun Sight Kit nearly 20 years ago. The new Kit is truly the natural and logical companion to the original Kit "A" - giving you, the gunsmithing or sports shop, all the sights that Kit "A" doesn't contain, but that you need to have a really versatile and complete replacement shotgun sight inventory in just 2 small boxes. Plus, in Kit "B", we took the practical step of making the White beads out of stainless steel. Stainless is stronger, won't crush or distort when the beads are installed, does not have to be removed when the gun goes into the hot bluing solution (and won't dissolve and ruin your bluing bath once it's in there)!! Plus, the stainless won't break off at the top of the shank, stays shiny forever, stands up to tougher use in the field, and generally is one whale of a lot better sight. But, the real advantage of Kit "B" is that by combining it with Kit "A", you can now have a selection of shank sizes unequaled among shotgun sights. So, if you get a gun in your shop with a badly misshapen, worn or stripped-out sight hole, you will have a bead of exactly the same size, but with a shank one size larger. Replacement is then just a simple matter of drilling out the hole to the next size larger, tapping, and inserting the new bead. The most important thing is that the Kit saves you time, giving faster work turnaround in the shop, which makes you more money. It also eliminates "patching-up" the original hole (which often then requires repairing the blue, too) and redrilling and tapping for the original size shank. And, it gets your customer back in the field sooner which makes him happy, and makes you look good! Like the original Kit "A", the workmanship is superb, the sight globes are true spheres, the threads are cut onto the shank, so they are clean, sharp, and give the best possible fit. And, they are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Thread sizes are 6-48 and 8-40; certainly two of the most common and popular thread sizes in the gun industry, so everyone has the necessary drills and taps. The bead sizes are .067, .130 and .175, again the most popular sizes, and the same as those used in Kit "A". The Gold beads are machined from finest brass; the White beads from tough stainless steel. Because these are solid metal beads, they cannot bleed, chip, peel or have the color wear off. As the companion to Kit "A", Kit "B" also comes in a clear plastic counter case. Each individual sight number is in its own clearly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 new sights. By itself, a complete inventory of 3 very popular sizes in 2 colors, with 6-48 and 8-40 shanks; but as a companion to Kit "A", an unbeatable assortment of the most versatile and useful shotgun sight beads available anywhere. And, right at your fingertips, ready to install for your customers. Order your Brownells Shotgun Sight Kit "B" today. Refill Sights for Kit "B" - Refills for the Shotgun Sight Kit "B" are single or 10-pak of sights of one number.

SHOTGUN SIGHT KIT "B" Safety Instruction Guide

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "B". This product is designed to enhance your shotgun sight inventory and ensure a versatile replacement solution for your sighting needs. This safety instruction guide provides essential information regarding the safe use, installation, and disposal of the product, ensuring compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and understand the instructions before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear.
- Report any unsafe product experiences to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Avoid using the product if it appears damaged or defective.
- Use appropriate tools when installing or adjusting the sights to prevent injury.
- Do not attempt to modify the product in any way.
- Ensure that the shotgun is unloaded before installing or replacing the sights.
- Always wear safety glasses when working with tools and firearms.
- Be cautious of sharp edges on the sight components during handling.

Instructions for Installation and Usage

1. Preparation:

- Ensure the shotgun is completely unloaded.
- Gather necessary tools: drill, tap, and appropriate size wrenches.

2. Removing the Old Sight:

- If present, carefully remove the old sight using the appropriate tool.
- Clean the sight hole to remove debris or residue.

3. Selecting the New Sight:

- Choose the correct bead size from the Shotgun Sight Kit "B".
- Ensure the selected bead is compatible with the shotgun's specifications.

4. Drilling and Tapping:

- If necessary, drill out the existing sight hole to the next size larger.
- Tap the new hole to prepare for the installation of the new bead.

5. Installing the New Sight:

- Insert the new bead into the tapped hole.
- Ensure it is threaded tightly and securely.
- Adjust the sight as needed for accuracy.

6. Final Checks:

- Inspect the installation to ensure the sight is secure.
- Test the shotgun's functionality in a safe environment.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer usable, dispose of it in a manner that complies with local waste management guidelines.
- Do not dispose of the product in regular household waste if it contains metal components. Check for recycling options.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact points provided with the product. Always ensure you have the product information on hand when seeking assistance.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit "B".
