

# 1911 STOCK BUSHINGS - 1911 STANDARD STOCK BUSHINGS 48 PACK

[Handgun Parts](#) > [Grip Parts](#) > [Grip Bushings](#)

## Made to Original Factory Specs For Easy Replacement

The 1911 Government model auto is about as rugged as a mountain mule, but when you take the grips off to polish and reblue the critter or put on another set of grips, chances are that the stock frame bushing will be stripped. And, when you remove the frame bushings to get the best polishing job on the frame, you'll find yourself looking for new bushings. Standard Stock Bushing - Nicely made and finished, these special-sized, bushings are packed in sets of 4 Bushings. Stainless Steel (S/S) Stock Bushing - Look "right" on stainless steel and nickel-plated guns.

# Safety Instruction Guide for 1911 Stock Bushings

## Introduction

Thank you for choosing the 1911 Stock Bushings. These bushings are designed for the 1911 Government model auto, ensuring a secure fit for your grips. This guide provides essential safety information, installation instructions, and proper usage to ensure a safe experience when using this product.

## General Safety Guidelines

- Always inspect the bushings for any signs of damage or wear before use.
- Ensure that all tools used during installation are in good condition and appropriate for the task.
- Store the bushings in a cool, dry place to prevent corrosion or damage.
- Keep the bushings out of reach of children and vulnerable individuals to avoid accidental injury.
- If you experience any issues during installation or usage, seek assistance from a qualified gunsmith.

## Specific Safety Precautions for Use

- Make sure to wear appropriate safety gear, including safety glasses and gloves, when handling tools and the bushings.
- Avoid using excessive force when installing or removing bushings to prevent stripping or damaging the frame.
- Ensure that the firearm is unloaded and pointed in a safe direction before performing any work on it.
- Do not modify the bushings or use them in a manner not intended by the manufacturer.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the firearm is completely unloaded.
- Gather all necessary tools, including a 7/32" tap drill for the bushings.
- Clean the area around the frame where the bushings will be installed.

### 2. Removing Old Bushings

- Carefully remove the grips from the firearm.
- Use the appropriate tool to gently unscrew the old bushings from the frame.
- Inspect the frame for any damage or wear.

### 3. Installing New Bushings

- Take the new stock bushings from the packaging.
- Align each bushing with the corresponding hole in the frame.
- Use the 7/32" tap drill to ensure proper threading.
- Gently screw in each bushing until it is snug but do not overtighten.

### 4. Reattaching Grips

- Once the new bushings are securely in place, reattach the grips to the firearm.
- Ensure that the grips fit securely and do not wobble.

### 5. Final Inspection

- Inspect the installation to ensure that all components are secure.
- Test the functionality of the grips before using the firearm.

## Disposal Instructions

- Dispose of any old or damaged bushings in accordance with local regulations.
- Do not throw bushings in regular household waste; consider recycling options if available.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the 1911 Stock Bushings, please contact your local dealer or manufacturer representative. Ensure you have the product details ready for faster assistance.

Thank you for following these safety instructions. Your safety and the proper functioning of your firearm are of utmost importance. Always prioritize safety when handling firearms and related components.
