

45 DEGREE CHAMFER CUTTER FOR 17 CALIBER - BROWNELLS 45 17 CALIBER 1/2" CHAMFER CUTTER ONLY

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Cutters](#)

BROWNELLS 45 DEGREE CHAMFER CUTTER FOR 17 CALIBER A damaged or poorly-cut muzzle can really hurt accuracy; sharp edges on revolver cylinder chamber mouths can cause rounds to hang up going into the cylinder - a real problem when using speedloaders. Cure both problems with this cutter.

SPECIFICATIONS: Material: Steel Length: 2-3/8" Diameter: 1/2" 45 Degrees

Safety Instructions for 45° Chamfer Cutter

Introduction

Thank you for choosing the 45° Chamfer Cutter by Brownells. This product is designed to enhance the accuracy of your firearm by ensuring clean and precise chamfering of the muzzle and cylinder chambers. Please read this safety instruction guide carefully to ensure safe and effective use of the cutter.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the cutter.
- Keep the cutter out of reach of children and inexperienced users.
- Inspect the cutter before each use for any signs of damage or wear.
- Use the cutter only for its intended purpose as specified in this guide.
- Ensure your workspace is clean and organized to prevent accidents.
- Do not use the cutter if you are tired or under the influence of drugs or alcohol.

Specific Safety Precautions for Use

- Be cautious of sharp edges. The cutter is designed with sharp blades that can cause injury.
- Always secure the workpiece properly before using the cutter to prevent movement.
- Do not apply excessive force when using the cutter; let the tool do the work.
- Avoid wearing loose clothing or jewelry that can get caught in the cutter.
- Store the cutter in a safe place after use to prevent unauthorized access.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is welllit and free from distractions.
- Gather all necessary tools and materials, including the cutter and a secure workbench.

2. Installation:

- If applicable, attach the cutter to a compatible drill or tool following the manufacturer's instructions.
- Ensure that the cutter is securely fastened and properly aligned to avoid accidents.

3. Usage:

- Position the cutter at a 45° angle to the workpiece.
- Begin cutting at a slow speed, gradually increasing as needed for better control.
- Frequently check the progress to ensure even chamfering.
- After use, clean the cutter with a soft cloth to remove any debris.

Disposal Instructions

- Dispose of the cutter in accordance with local regulations for hazardous materials.
- If the cutter is damaged or no longer usable, ensure it is disposed of in a way that prevents injury to others.

Contact Information for Further Support

For any questions or concerns regarding the use of the 45° Chamfer Cutter, please refer to the manufacturer's contact information provided with the product packaging. Ensure that you have your product details on hand for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience when using the 45° Chamfer Cutter. Thank you for your attention to safety and for choosing our product.
