

SHOTGUN BARREL POLISHING FLEX HONE® - 16 GAUGE FLEX HONE SET W/OIL

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. SHOTGUN BARREL POLISHING FLEX HONE® 16 GAUGE FLEX HONE SET W/OIL Safety Instruction Guide

Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 16 GAUGE FLEX HONE SET W/OIL. This guide provides essential safety instructions to ensure the safe use of this product. Please read this manual carefully before using the product to maximize safety and effectiveness.

General Safety Guidelines

- Ensure safe use of the Flex Hone by following all instructions provided in this guide.
- Be aware of potential hazards associated with the use of abrasive tools, including but not limited to: Eye injury from flying debris. Skin irritation from oils and abrasives. Inhalation of dust particles.
- Always use the product in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls or safety updates on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including: Safety goggles to protect your eyes. Gloves to protect your hands from abrasives and oils. A dust mask to prevent inhalation of dust particles.
- Avoid using excessive pressure while honing to prevent damage to the barrel and the Flex Hone.
- Use only Flex Hone® oil as specified. Other oils may damage the abrasive "balls" and void the warranty.
- Do not operate the drill at speeds exceeding 750 RPM.
- Inspect the Flex Hone for damage before each use. Do not use if damaged.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the Flex Hone, Flex Hone® oil, and a variable speed electric drill.
- Ensure the work area is clean and free of clutter.

2. Setting Up the Flex Hone:

- Chuck the Flex Hone into the electric drill securely.
- Wet the hone with Flex Hone® oil to ensure optimal performance.

3. Using the Flex Hone:

- Insert the hone into the barrel from the breech end (if possible).
- Start the drill on a low speed to ensure control.
- Gradually increase the speed, ensuring not to exceed 750 RPM.
- Move the hone in and out of the barrel smoothly, allowing the abrasive and oil to create a slurry that aids in polishing.
- Pay extra attention to any tight spots, spending additional time honing these areas for an even finish.

4. PostUse Care:

- After honing, run a patch through the barrel to remove any debris.
- Clean the Flex Hone after use and store it in a safe place.

Disposal Instructions

- Dispose of any used Flex Hone® oil and abrasives in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the SHOTGUN BARREL POLISHING FLEX HONE® 16 GAUGE FLEX HONE SET W/OIL, please consult the manufacturer's website or contact customer support for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Flex Hone. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
