

# FORCING CONE FLEX HONE® - 12 GAUGE MEDIUM FLEX HONE

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

## Tapered Design Polishes Quickly & Efficiently

The finishing touch for forcing cones cut with Long Forcing Cone Reamers. Taper matches perfectly so the maximum amount of abrasive media contacts the barrel's surface for faster, more effective polishing action, with less elbow grease and work. Must be used with Flex Hone Oil; use of other oils will destroy the abrasive balls and void the guarantee. View Flex-Hone PDF Here

## Attributes

- Name: [12 GAUGE MEDIUM FLEX HONE](#)

# Safety Instruction Guide for FORCING CONE FLEX HONE® 12 GAUGE MEDIUM FLEX HONE

## Introduction

Thank you for choosing the FORCING CONE FLEX HONE® 12 GAUGE MEDIUM FLEX HONE. This product is designed to provide an effective polishing action for forcing cones cut with Long Forcing Cone Reamers. To ensure your safety and the optimal use of this product, please read and follow the guidelines outlined in this instruction manual.

## General Safety Guidelines

- Ensure safe use of the product by following all instructions carefully.
- Be aware of potential hazards associated with the use of abrasive tools.
- Always use the product in a wellventilated area.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Check for any visible damage to the product before use; do not use if damaged.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the Flex Hone.
- Ensure that the Flex Hone is used with Flex Hone Oil; using other oils may damage the abrasive balls and void the warranty.
- Avoid excessive force during polishing to prevent damage to the barrel and the Flex Hone.
- Keep hands and other body parts away from the abrasive head during operation.
- Store the product in a cool, dry place when not in use to prevent deterioration.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary materials, including the FORCING CONE FLEX HONE®, Flex Hone Oil, and any required tools.
- Ensure your workspace is clean and organized.

### 2. Installation

- Attach the Flex Hone to a suitable power tool according to the manufacturer's instructions.
- Ensure that the connection is secure to prevent any accidents during use.

### 3. Application

- Apply a generous amount of Flex Hone Oil to the abrasive head before use.
- Position the Flex Hone at the forcing cone area of the barrel.
- Activate the power tool at a low speed to begin polishing.
- Gradually increase the speed while maintaining a steady motion to ensure even polishing.
- Periodically check the progress and apply more Flex Hone Oil as needed.

### 4. Completion

- Once polishing is complete, turn off the power tool and carefully remove the Flex Hone.
- Clean the barrel and the Flex Hone thoroughly after use.

## **Disposal Instructions**

- Dispose of any used Flex Hone Oil and wornout abrasive materials in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for appropriate disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the FORCING CONE FLEX HONE® 12 GAUGE MEDIUM FLEX HONE, please refer to the manufacturer's contact information provided with the product packaging.

By adhering to these safety guidelines and instructions, you can ensure safe and effective use of the FORCING CONE FLEX HONE® 12 GAUGE MEDIUM FLEX HONE. Thank you for your attention to safety, and enjoy your polishing experience!
