

FORCING CONE FLEX HONE® - 20 GAUGE MEDIUM FLEX HONE

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Tapered Design Polishes Quickly & Efficiently

The finishing touch for forcing cones cut with Long Forcing Cone Reamers. Taper matches perfectly so the maximum amount of abrasive media contacts the barrel's surface for faster, more effective polishing action, with less elbow grease and work. Must be used with Flex Hone Oil; use of other oils will destroy the abrasive balls and void the guarantee. View Flex-Hone PDF [Here](#)

Safety Instruction Guide for FORCING CONE FLEX HONE® 20 GAUGE MEDIUM FLEX HONE

Introduction

Thank you for choosing the FORCING CONE FLEX HONE® 20 GAUGE MEDIUM FLEX HONE. This product is designed to enhance the finishing touch for forcing cones cut with Long Forcing Cone Reamers. It is crucial to follow safety guidelines to ensure safe and effective use of this product.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure the product is suitable for your specific application.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Regularly check for any signs of wear or damage to the product before use.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Abrasive Media Contact:** The taper of the Flex Hone matches perfectly with the barrel's surface, allowing for maximum contact. Ensure that you do not apply excessive pressure during use to avoid damaging the barrel.
- **Use of Flex Hone Oil:** Always use Flex Hone Oil as specified. The use of other oils can destroy the abrasive balls and void the guarantee.
- **Personal Protective Equipment (PPE):** Wear suitable PPE, including safety goggles and gloves, to protect yourself from abrasive particles and other potential hazards.
- **Ventilation:** Ensure that you are working in a well-ventilated area to avoid inhaling any dust or particles generated during the honing process.
- **Avoiding Injury:** Be cautious of sharp edges and abrasive surfaces. Handle the product carefully to prevent cuts or abrasions.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the Flex Hone and Flex Hone Oil.
- Ensure that your work area is clean and organized.

2. Installation:

- Attach the Flex Hone to an appropriate power tool, ensuring a secure fit.
- Check that the power tool is set to the correct speed for optimal performance.

3. Usage:

- Apply a generous amount of Flex Hone Oil to the abrasive head before starting.
- Begin honing by gently inserting the Flex Hone into the barrel.
- Move the tool in and out smoothly, allowing the abrasive media to polish the surface effectively.
- Do not force the tool; let the abrasive action do the work.
- Periodically check the progress to ensure you achieve the desired finish.

4. PostUse:

- Clean the Flex Hone thoroughly after use to remove any residue.
- Store the product in a dry place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding waste disposal.
- Do not dispose of the product in regular household waste unless specified.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the FORCING CONE FLEX HONE® 20 GAUGE MEDIUM FLEX HONE, please reach out to your local distributor or manufacturer's support team. They can provide you with the necessary assistance and information.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the FORCING CONE FLEX HONE® 20 GAUGE MEDIUM FLEX HONE. Always prioritize safety and proper handling to achieve the best results. Thank you for your attention to these important guidelines.
