

FORCING CONE FLEX HONE® - 16 GAUGE FINE FLEX HONE

[Gunsmith Tools & Supplies](#) > [Shotgun Tools](#) > [Barrel Hones & Accessories](#)

Tapered Design Polishes Quickly & Efficiently

The finishing touch for forcing cones cut with Long Forcing Cone Reamers. Taper matches perfectly so the maximum amount of abrasive media contacts the barrel's surface for faster, more effective polishing action, with less elbow grease and work. Must be used with Flex Hone Oil; use of other oils will destroy the abrasive balls and void the guarantee. View Flex-Hone PDF Here

FORCING CONE FLEX HONE® 16 GAUGE FINE FLEX HONE Safety Instruction Guide

Introduction

Thank you for choosing the FORCING CONE FLEX HONE® 16 GAUGE FINE FLEX HONE. This product is designed to enhance the performance of your shotgun by providing a superior finish to forcing cones. It is essential to follow safety guidelines to ensure safe and effective use. This guide provides important safety information, usage instructions, and disposal guidelines to help you use this product responsibly.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any wear or damage to the product before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) when using the Flex Hone, including safety goggles and gloves.
- Use the Flex Hone only with Flex Hone Oil. The use of other oils may damage the abrasive balls and void the warranty.
- Do not exceed the recommended operating speed and pressure while using the Flex Hone.
- Ensure that the shotgun is unloaded and pointed in a safe direction before starting any work.
- Avoid inhaling dust created during the honing process. Use a dust mask if necessary.
- Do not use the product in wet conditions or in the presence of flammable materials.

Instructions for Installation and Usage

• Preparation:

- Ensure that the shotgun is completely unloaded.
- Clean the barrel to remove any debris or obstructions.

• Installation:

- Attach the FORCING CONE FLEX HONE® to a suitable power tool as per the manufacturer's instructions.
- Ensure the Flex Hone is securely attached before proceeding.

• Usage:

- Apply a generous amount of Flex Hone Oil to the abrasive head before use.
- Insert the Flex Hone into the barrel, ensuring it is aligned properly.
- Start the power tool at a low speed and gradually increase to the recommended operating speed.
- Move the Flex Hone in and out of the barrel smoothly to achieve an even finish.
- Periodically check the progress and apply more oil as needed.
- Once finished, remove the Flex Hone and clean the barrel thoroughly to remove any residual abrasive material.

- **Postusage Care:**

- Clean the Flex Hone with warm soapy water and dry it thoroughly after use.
- Store the Flex Hone in a safe and dry location, away from children.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials.
- Consider recycling options for any metal components if applicable.

Contact Information for Further Support

For any inquiries regarding the safety and use of the FORCING CONE FLEX HONE® 16 GAUGE FINE FLEX HONE, please refer to the manufacturer's contact details provided in the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure the safe and effective use of the FORCING CONE FLEX HONE® 16 GAUGE FINE FLEX HONE. Thank you for your attention to safety.
