

# LUG AREA HONE FOR 1911 AUTO SLIDE - 1911 SLIDE LUG AREA HONE, FINE

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Hones & Files](#)

The inside of a 1911 slide suffers a lot of wear and tear, but honing the critical part creates a smoother surface, reducing friction and wear. The treated surface features a beautiful shine and will be more corrosion resistant because the treatment actually increases the metal's ability to hold oil and lubricants. Hones are available in a medium 400 grit or a fine 800 grit.

# Safety Instruction Guide for LUG AREA HONE FOR 1911 AUTO SLIDE

## Introduction

Thank you for choosing the LUG AREA HONE for your 1911 Auto Slide. This product is designed to enhance the performance of your firearm by honing the slide's lug area, resulting in a smoother surface that reduces friction and wear. It is essential to follow the safety guidelines and instructions outlined in this document to ensure safe and effective use.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure the product is suitable for your specific model: Government, Commander, or Officers.
- Use the hone only as intended and in accordance with these instructions.
- Keep the hone out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the product before use.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as gloves and safety goggles when using the hone.
- Ensure the work area is clean, dry, and welllit to prevent accidents.
- Do not use the hone on any surfaces that are not compatible with the product.
- Always apply the recommended FlexHone oil to the hone before use to avoid damage and ensure optimal performance.
- Avoid applying excessive pressure while honing to prevent damage to the slide and the hone.
- Store the hone in a safe place when not in use to prevent accidental injury or damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and in a safe condition before beginning work.
- Gather all necessary tools and materials, including the LUG AREA HONE and FlexHone oil.

### 2. Honing Process:

- Apply a few drops of FlexHone oil to the hone's abrasive surface.
- Insert the hone into the slide lug area, ensuring it fits securely.
- Use a drill or honing tool at a low speed to begin honing the surface.
- Move the hone in and out gently, allowing the abrasive to do its work. Avoid applying excessive force.
- Periodically check the surface to ensure a smooth finish and to prevent overhoning.

### 3. PostUsage:

- Once honing is complete, clean the slide lug area with a suitable solvent to remove any debris or excess oil.
- Inspect the surface for any imperfections and ensure it meets your requirements.
- Store the hone properly, ensuring it is clean and dry.

## **Disposal Instructions**

- Dispose of any used FlexHone oil according to local regulations.
- The LUG AREA HONE is made from materials that may be recyclable. Check with your local recycling facility for proper disposal methods.
- Do not dispose of the hone in regular household waste if it shows signs of wear or damage.

## **Contact Information for Further Support**

For any inquiries regarding the safety or usage of the LUG AREA HONE, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website for additional resources.

Thank you for your attention to these safety guidelines. Enjoy using your LUG AREA HONE for improved performance and longevity of your 1911 Auto Slide.
