RSA108 Spring Kit Safety Instruction Guide

Introduction

Thank you for choosing the RSA108 Spring Kit for Old Army® & Old Model Ruger Single Action. This kit is designed to enhance the performance of your firearm, providing a smoother and more reliable shooting experience. However, it is essential to follow safety guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is suitable for your specific firearm model.
- Always handle firearms with care, treating them as if they are loaded.
- Store the spring kit and any firearm components in a secure location, out of reach of children and unauthorized individuals.
- Regularly inspect your firearm and components for wear or damage.
- Use only recommended tools and components during installation and maintenance.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to malfunctioning or unsafe operation of the firearm.
 - Using the spring kit with incompatible firearm models can cause damage or injury.
- **Avoiding Hazards:**
 - Read all instructions carefully before installation.
 - Ensure the firearm is unloaded before beginning any work.
 - Do not attempt to modify the spring kit or use it in a manner not specified in this guide.
 - Wear safety glasses and gloves while handling springs to protect against potential injury.
- **AgeSpecific Warnings:**
 - This product is intended for use by individuals aged 18 and older.
 - Ensure that younger individuals are supervised when handling firearms or firearm components.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools (e.g., screwdrivers, pliers) before beginning installation.
- Ensure your workspace is clean and welllit.

2. Installation Steps:

- **Step 1:** Ensure the firearm is completely unloaded. Remove any ammunition from the vicinity.
- **Step 2:** Disassemble the firearm according to the manufacturer's instructions.
- **Step 3:** Remove the existing trigger spring and hammer spring from the firearm.
- **Step 4:** Install the new 19 lb. hammer spring, ensuring it is seated correctly.
- **Step 5:** Install the 25% reduced power trigger spring in place of the original trigger spring.
- **Step 6:** Install the increased power base pin latch spring, if applicable.
- **Step 7:** Reassemble the firearm carefully, ensuring all components are secure.

- **Step 8:** Perform a function check to ensure the firearm operates correctly.

3. Usage:

- Once installed, test the firearm in a safe environment.
- Monitor the performance of the new springs during initial use and make adjustments if necessary.

Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not dispose of springs in a manner that could pose a risk to the environment or public safety.
- Check with local waste management authorities for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the RSA108 Spring Kit, please refer to the manufacturer's contact information provided with the product packaging. Ensure you have the product details ready when seeking assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your RSA108 Spring Kit. Always prioritize safety when handling firearms and their components.
