SWK/L/N201 PROSPRING KIT SAFETY INSTRUCTIONS

Introduction

Congratulations on your purchase of the SWK/L/N201 PROSPRING KIT for S&W K, L, N Frame Revolver. This product is designed to enhance the performance of your revolver by providing reduced power springs for improved trigger pull and smoothness. This safety instruction guide is designed to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read and follow these instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle firearms and related components with care and responsibility.
- Store the spring kit in a safe location, away from children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use this spring kit with S&W K, L, N Frame Revolvers.
- Ensure that the revolver is unloaded before installation of the spring kit.
- Wear safety glasses during installation to protect your eyes from potential spring release.
- Follow all manufacturer instructions when installing the spring kit to avoid improper installation.
- If you are not familiar with firearm maintenance, seek assistance from a qualified gunsmith.
- Do not modify or alter the spring kit in any way, as this may compromise safety and performance.

Instructions for Installation and Usage

1. Preparation:

- Ensure the revolver is completely unloaded.
- Gather necessary tools (e.g., screwdriver, punch tool) for installation.

2. Removing the Old Springs:

- Carefully remove the grip panels to access the internals of the revolver.
- Use the punch tool to carefully push out the existing mainspring and rebound springs.
- Keep track of all removed parts for reassembly.

3. Installing the New Springs:

- Take the Power Rib mainspring from the kit and insert it into the mainspring housing.
- Select the desired rebound spring (13, 14, or 15 lb) and install it in the appropriate location.
- Ensure all springs are seated properly and securely.

4. Reassembling the Revolver:

- Replace the grip panels once all springs are installed.
- Doublecheck that all parts are reassembled correctly and securely.

5. Testing:

- After installation, conduct a function test with the revolver to ensure proper operation.
- If any issues arise, consult a qualified gunsmith for further assistance.

Disposal Instructions

- Dispose of any old springs and packaging materials in accordance with local waste disposal regulations.
- Do not dispose of springs in a manner that poses a risk to the environment or public safety.

Contact Information for Further Support

For any questions, concerns, or safety inquiries regarding the SWK/L/N201 PROSPRING KIT, please refer to your local regulations for appropriate contact information or consult the manufacturer directly.

By following these safety instructions, you can ensure a safe and effective experience with your SWK/L/N201 PROSPRING KIT. Thank you for choosing our product and for prioritizing safety in your firearm handling practices.
