# 1911 Checkering Guide Safety Instructions

## Introduction

Thank you for choosing the 1911 Checkering Guide from Brownells. This guide is designed to help you safely and effectively use the checkering tool for your 1911 Auto frame. Please read this safety instruction manual carefully to ensure safe operation and to maximize the performance of your product.

## General Safety Guidelines

- Ensure that the work area is clean, welllit, and free from distractions.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the checkering guide out of reach of children and unauthorized users.
- Inspect the checkering guide before each use to ensure it is in good working condition.
- Do not use the checkering guide for any purpose other than its intended use.
- Be aware of your surroundings and ensure that no one is in close proximity while using the tool.

## Specific Safety Precautions for Use

- Clamping: Ensure the checkering guide is securely clamped over the frame of the 1911 Auto before starting work. A loose clamp can cause slips, leading to injury or damage to the firearm.
- Diamond Angles: When setting up the guide for 60° or 90° diamonds, doublecheck the alignment to ensure accurate checkering lines.
- Checkering File: Use a checkering file that is compatible with the guide. Ensure the file is in good condition and free from defects.
- Pressure: Do not apply excessive pressure when using the checkering file. This can lead to uneven checkering and potential injury.
- Distraction: Avoid distractions while using the checkering guide. Focus on the task at hand to maintain control and precision.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the checkering guide, checkering file, and any additional tools required for your project.
- Ensure the 1911 Auto frame is clean and free from debris.

### 2. Clamping the Guide:

- Position the checkering guide over the front strap of the 1911 Auto frame.
- Adjust the clamp to fit the frame securely, ensuring it is tight enough to prevent movement during use.

### 3. Setting Diamond Angles:

- Choose either the 60° or 90° diamond configuration based on your project requirements.
- Adjust the guide accordingly and verify that it is correctly aligned.

### 4. Using the Checkering File:

- Begin the checkering process by applying a consistent and controlled stroke with the checkering file along the guide.
- Follow the contour of the frame for even results, and avoid applying too much pressure.

## **5. Finishing Up:**

- Once the desired checkering pattern is achieved, carefully remove the checkering guide from the frame.
- Inspect the work to ensure that the checkering is even and meets your standards.

## **Disposal Instructions**

- Dispose of any packaging materials responsibly, following local regulations for recycling or waste disposal.
- If the checkering guide becomes damaged beyond repair, follow local guidelines for the disposal of metal products.

## **Contact Information for Further Support**

For any inquiries or additional support regarding the 1911 Checkering Guide, please refer to the contact information provided with your purchase. Always ensure that you reach out to authorized representatives for assistance with safety concerns or product-related questions.

By following these safety instructions, you can ensure a safe and effective experience while using the 1911 Checkering Guide. Thank you for prioritizing safety and quality in your work.
