

BARREL VISES W/ BUSHINGS - BARREL VISE WITH #9 STEEL BUSHING I.D. 1.200"

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Vises & Accessories](#) > [Barrel Vises](#)

Extra Surface Area Gives Tremendous Power To Clamp Hold & Even The Tightest Barrel

To complement our "Ring-Of-Steel" Action Wrench System, we've developed the only professional-quality Barrel Vise that will positively clamp and keep even the tightest barrel from turning during removal. Machined from solid steel for durability to service the barrel installation and removal needs of any gunsmith for years and years. Our exclusive four bolt system and extra-wide design generates so much holding force, the Brownells Barrel Vise must be firmly bolted to the stoutest bench or an immovable base to realize its full potential. Split barrel bushings come in a variety of sizes to fit many popular barrels (and some not-so-common ones) to make this universal Barrel Vise system the very first choice of professional gunsmiths. Steel Bushings provide years of service and have the necessary clamping power to break loose the tightest barrels. Aluminum Bushings also give a strong hold without risk of marring your barrel.

Attributes

- Name: [BARREL VISE WITH #9 STEEL BUSHING I.D. 1.200"](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080860009

Safety Instruction Guide for Barrel Vises with Bushings

Introduction

Thank you for choosing the Barrel Vises with Bushings. This product is designed to provide a secure and reliable method for clamping barrels during installation and removal. To ensure your safety and the effective use of this product, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the Barrel Vise in accordance with the manufacturer's instructions.
- Inspect the product before each use for signs of damage or wear.
- Ensure that the Barrel Vise is securely mounted to a stable workbench or immovable base.
- Keep the work area clean and free from distractions to prevent accidents.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves.
- Be aware of your surroundings and ensure that no one is in the immediate area when using the Barrel Vise.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the barrel you are working on is compatible with the Barrel Vise and the bushings being used.
- Use only the recommended bushings with the Barrel Vise to prevent damage to the barrel or the vise.
- Do not exceed the clamping capacity of the Barrel Vise, as this may cause damage or injury.
- Avoid using excessive force when tightening the bolts; overtightening can damage the Barrel Vise or the barrel.
- Always follow the correct procedures for installation and removal of barrels to prevent accidents.
- Store the Barrel Vise and bushings in a dry place to prevent rust and corrosion.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your work area is clean and welllit.
- Gather all necessary tools and equipment, including the Barrel Vise, bushings, and mounting bolts.

2. Mounting the Barrel Vise:

- Securely bolt the Barrel Vise to a stable workbench or immovable base using the provided $1\frac{1}{2}''$ 20 x 2" Allen head bolts.
- Ensure that the vise is level and does not wobble.

3. Selecting the Right Bushing:

- Choose the appropriate bushing size for the barrel you are working on.
- Ensure that the bushing fits snugly and securely in the Barrel Vise.

4. Clamping the Barrel:

- Insert the barrel into the selected bushing.
- Tighten the bolts on the Barrel Vise gradually and evenly to secure the barrel in place.
- Check that the barrel is held firmly and does not move.

5. Removing the Barrel:

- Follow the reverse procedure to remove the barrel from the vise.
- Loosen the bolts gradually and carefully remove the barrel.

6. Cleaning and Maintenance:

- After use, clean the Barrel Vise and bushings with a soft cloth to remove any debris.
- Inspect the product regularly for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn parts in accordance with local regulations.
- If the Barrel Vise or bushings are no longer usable, consider recycling the metal components where possible.
- Do not dispose of the product in regular household waste.
