SCOPE RING ALIGNMENT LAP Safety Instructions

Introduction

Thank you for choosing the SCOPE RING ALIGNMENT LAP. This tool is designed to help you achieve precise alignment of scope rings, ensuring optimal performance and protection of your scope. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the SCOPE RING ALIGNMENT LAP in accordance with the manufacturer's instructions.
- Ensure that the work area is clean and free from hazards before using the tool.
- Do not use the tool for any purpose other than its intended use as specified in this guide.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before use.
- In case of an emergency or injury, seek medical attention immediately.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the tool.
- Ensure that the scope rings are securely mounted before attempting alignment.
- Avoid excessive force during use to prevent damage to the scope or tool.
- Do not attempt to align scope rings that are severely damaged or deformed.
- Use the lapping compound provided with the tool and follow the instructions for application to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the SCOPE RING ALIGNMENT LAP, lapping compound, and any required tools.
- Ensure the work surface is stable and free from clutter.

2. Application of Lapping Compound:

- Apply a small amount of lapping compound to the lapping grooves of the SCOPE RING ALIGNMENT LAP.
- Ensure an even distribution of the compound for optimal results.

3. Aligning Scope Rings:

- Insert the SCOPE RING ALIGNMENT LAP into the scope rings to check for alignment.
- Rotate the tool gently to identify high spots and misalignment.
- Use the dual handles for better control during the lapping process.

4. Lapping Process:

- Move the SCOPE RING ALIGNMENT LAP back and forth in a smooth motion to remove high spots.
- Periodically check the alignment and adjust as necessary.
- Continue lapping until the scope rings are properly aligned.

5. Final Check:

- After lapping, remove the tool and clean any excess lapping compound from the scope rings.
- Recheck the alignment before mounting the scope to ensure proper fit.

Disposal Instructions

- Dispose of any unused lapping compound and packaging materials in accordance with local regulations.
- Do not dispose of the SCOPE RING ALIGNMENT LAP in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the use of the SCOPE RING ALIGNMENT LAP, please contact your local distributor or visit the manufacturer's website for additional support.

Thank you for prioritizing safety while using the SCOPE RING ALIGNMENT LAP. Proper use and care will ensure the longevity of the tool and enhance your shooting experience.
