

# MX FINISHING WHEELS - MX FINISHING WHEEL, 1/2"X 1/2", 50 GRIT, 3 PACK

[Gunsmith Tools & Supplies](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# MX Finishing Wheels Safety Instruction Guide

## Introduction

Thank you for choosing MX Finishing Wheels. These wheels are designed for finishing, polishing, and removing scratch marks on various materials. This guide provides essential safety information to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand all safety instructions before using the product.
- Ensure that the product is suitable for your intended application.
- Use the product only for its intended purpose as described in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of damage or wear before use.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety goggles and a dust mask, to protect against dust and debris.
- Ensure that the rotary tool is compatible with the 1/8" shank of the finishing wheels.
- Do not exceed the recommended maximum speed for the rotary tool when using the finishing wheels.
- Avoid using the wheels on materials that may cause them to load up or wear out prematurely.
- Do not force the wheel onto the workpiece; let the tool do the work.
- Always maintain a firm grip on the rotary tool during operation.
- Ensure that the work area is wellventilated to minimize dust inhalation.

## Instructions for Installation and Usage

### 1. Installation:

- Disconnect the rotary tool from the power source.
- Insert the 1/8" shank of the finishing wheel into the chuck of the rotary tool.
- Tighten the chuck securely to prevent the wheel from coming loose during operation.
- Reconnect the rotary tool to the power source.

### 2. Usage:

- Select the appropriate grit for your application (50 grit for heavy material removal and finishing).
- Allow the tool to reach full speed before making contact with the workpiece.
- Gently apply the wheel to the surface, using even pressure.
- Move the wheel in a consistent motion to avoid overheating or damaging the workpiece.
- After use, turn off the rotary tool and allow the finishing wheel to come to a complete stop before setting it down.

## Disposal Instructions

- Dispose of used finishing wheels in accordance with local regulations for hazardous waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options where available.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the MX Finishing Wheels, please refer to the manufacturer's contact information provided on the packaging or product insert.

Thank you for following these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy using your MX Finishing Wheels responsibly!
