

# MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL, 1/2"X 1/2", 320 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# MX Finishing Wheels Safety Instruction Guide

## Introduction

Thank you for choosing the MX Finishing Wheels by Brownells. These nonwoven, cotton fiber wheels are designed for various finishing tasks, including polishing and final shaping. To ensure safe and effective use, please read and follow this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and dust masks, to protect against dust and debris.
- Keep the workspace clean and free of clutter to prevent accidents.
- Ensure that the tool you are using is compatible with the 1/8" shank of the MX Finishing Wheels.
- Regularly check the wheels for any signs of wear or damage before use.
- Do not use the wheels on materials that they are not designed for, such as hard metals that could cause excessive wear.

## Specific Safety Precautions for Use

- Use the wheels at the recommended speed to avoid overheating and damage.
- Avoid applying excessive pressure while using the wheels to prevent breakage.
- Do not exceed the maximum operating speed of the rotary tool.
- Ensure that the workpiece is securely clamped or held to prevent movement during use.
- Do not wear loose clothing or jewelry that may become caught in the rotating tool.
- Keep hands and other body parts away from the rotating wheel during operation.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the rotary tool is unplugged or turned off before installation.
- Insert the 1/8" shank of the MX Finishing Wheel into the collet of the rotary tool.
- Tighten the collet securely to hold the wheel in place.
- Check that the wheel is properly installed and does not wobble.

### 2. Usage:

- Plug in or turn on the rotary tool.
- Start the tool at a low speed and gradually increase to the desired speed.
- Apply the wheel to the workpiece gently, using light pressure.
- Move the wheel across the surface in a consistent motion to achieve the best results.
- Stop the tool and allow the wheel to come to a complete stop before removing it from the workpiece.

## Disposal Instructions

- Dispose of used MX Finishing Wheels in accordance with local waste disposal regulations.
- Do not dispose of the wheels in regular household waste if they contain hazardous materials.
- Consider recycling options where available to minimize environmental impact.

## **Contact Information for Further Support**

For any safety inquiries or productrelated questions, please contact the manufacturer or refer to the product packaging for additional information.

By following these safety instructions, you can ensure a safer and more effective experience with your MX Finishing Wheels. Thank you for your attention to these guidelines.
