

LONG TRIGGERGUARD SCREWS - BROWNELLS LONG TRIGGERGUARD ALLEN SCREWS FOR REMINGTON 700 BDL, BLUED

[Rifle Parts](#) > [Triggers Parts](#) > [Trigger Guard Parts](#) > [Trigger Guard Screws](#)

Don't Get Caught Short When Bedding Rifle Actions In After-Market Stocks

Precision-turned, heat-treated screws provide extra reach when bedding Remington rifle actions in synthetic or wooden stocks with thicker, cross-sectional depth. Approximately .250" longer than the factory screws for greater flexibility in bedding depth. Action screw kits are available with the standard slotted head to match the factory screws or with Allen head sockets that allow repeatable torque settings on match or target rifles.

LONG TRIGGERGUARD SCREWS SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the Long Triggerguard Screws by Brownells for your Remington 700 BDL. This guide provides important safety information and instructions to ensure the proper and safe use of the product. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always ensure you are using the correct screws for your specific model.
- Inspect the screws for any damage or defects before use.
- Keep the screws and all related tools out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE) such as safety glasses when handling tools.
- Follow all local regulations and guidelines regarding firearm modifications.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before beginning any work.
- Avoid overtightening the screws, as this may lead to damage to the firearm or the screws themselves.
- Do not use the screws for any purpose other than intended.
- If you experience any difficulty during installation, stop and consult a qualified gunsmith.
- Regularly check the screws for tightness and integrity, especially after use.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and in a safe position.
- Gather all necessary tools, including a screwdriver or Allen wrench compatible with the screws.

2. Installation Steps

- Remove the existing triggerguard screws using the appropriate tool.
- Align the Long Triggerguard Screws with the holes in the triggerguard.
- Insert the screws into the holes, ensuring they are straight and not crossthreaded.
- Tighten the screws gently to avoid overtightening. Follow the recommended torque settings if applicable.
- Ensure that the triggerguard is securely attached and does not move.

3. PostInstallation Check

- After installation, check the functionality of the trigger and safety mechanisms.
- Ensure that no parts are obstructed or improperly aligned.

Disposal Instructions

- Dispose of any damaged or unused screws in accordance with local regulations.
- Do not dispose of screws in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's website or contact your local retailer.

By following these guidelines, you can ensure the safe and effective use of the Long Triggerguard Screws. Thank you for your attention to safety and for choosing our product.
