

AR-15/M16 HEAVY DUTY EXTRACTOR SPRING - AMERICAN FIREARMS MFG CO/ AFMC HEAVY DUTY EXTRACTOR SPRING

[Rifle Parts](#) > [Bolt Parts](#) > [Extractor Parts](#) > [Extractor Springs](#)

For Positive, Consistent Extraction Even On Carbines & SBRs

Extra-strong extractor spring increases extractor's grip on case groove and helps ensure reliable, complete extraction. Especially effective for improving reliability of an AR-15 style carbine, pistol, or short barreled rifle (SBR) where a weak extractor spring can cause extractor lift, leading to failure to fully extract the spent case before the fresh round is fed from the magazine, resulting in a stoppage. Heavy-grade, high-quality spring steel and a proprietary heat-treating process ensure long service life with less weakening over time than ordinary springs.

Attributes

- Name: [AMERICAN FIREARMS MFG CO/ AFMC HEAVY DUTY EXTRACTOR SPRING](#)
- Manufacturer: [AMERICAN FIREARMS MFG CO/ AFMC](#)
- Product no.: 100004041
- Mfr. No.: BT-4001-5HD

Safety Instruction Guide for AR15/M16 Heavy Duty Extractor Spring

Introduction

Thank you for choosing the AR15/M16 Heavy Duty Extractor Spring by American Firearms MFG Co/AFMC. This product is designed to enhance the reliability and performance of your firearm. Please read this safety instruction guide carefully to ensure safe and effective use.

General Safety Guidelines

- Ensure that you are familiar with the safe handling and operation of firearms before using this product.
- Always follow local laws and regulations regarding firearms and their components.
- Keep the extractor spring and all firearm components out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear and damage.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the extractor spring only with AR15/M16/M4style rifles, carbines, and pistols.
- Ensure that the firearm is unloaded before installing or replacing the extractor spring.
- Wear appropriate personal protective equipment (PPE) such as safety goggles when handling firearm components.
- Be aware of potential hazards such as sharp edges on the spring or other components during installation.
- If you experience any issues with the extractor spring, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded, with no ammunition present.
- Gather necessary tools, including a punch tool and a small hammer.

2. Installation:

- Remove the bolt from the firearm according to the manufacturer's instructions.
- Locate the extractor on the bolt assembly.
- Carefully remove the old extractor spring, taking care not to damage other components.
- Install the new heavyduty extractor spring by placing it into the extractor housing.
- Ensure that the spring is seated properly and that the extractor is functioning correctly.

3. PostInstallation Check:

- Reassemble the bolt and reinstall it into the firearm.
- Perform a function check to ensure the extractor operates smoothly.
- Test the firearm under safe conditions to confirm reliable extraction.

Disposal Instructions

- Dispose of old extractor springs and any packaging materials in accordance with local waste disposal regulations.
- Do not dispose of the extractor spring in a manner that poses a risk to the environment or public safety.

Contact Information for Further Support

For any inquiries or concerns regarding the AR15/M16 Heavy Duty Extractor Spring, please contact the manufacturer or retailer from whom you purchased the product. Ensure that you have the product details and any relevant information ready for a swift response.

Remember to keep this safety instruction guide for future reference. Thank you for prioritizing safety and responsible firearm ownership.
