

# 308 AR V2 EXTENDED BOLT RELEASE - PHASE 5 TACTICAL EBRV2/308 EXTENDED BOLT RELEASE

[Home](#)

Extended release lever speeds magazine changes and enhances the shooter's ability to clear jams, double feeds, and malfunctions quickly and safely. Lets you catch and release the bolt with the trigger finger inside the triggerguard, instead of with your off hand. Push upward on the lever to lock the bolt rearward; push lightly downward to release it. Both operations can be performed without removing your hand from the pistol grip. EBRv2/308 is the same low-profile, drop-in replacement for the factory release on all models of the DPMS LR-308 series of AR-style .308 rifles, as well as the Remington R-25 in .308, .243, and 7mm-08. Not compatible with Armalite and DPMS Gen 2 style rifles

# Safety Instruction Guide for 308 AR V2 Extended Bolt Release

## Introduction

Thank you for choosing the 308 AR V2 Extended Bolt Release by Phase 5 Tactical. This product is designed to enhance your shooting experience by speeding up magazine changes and improving the ability to clear jams and malfunctions. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or using the extended bolt release.
- Familiarize yourself with all firearm safety rules, including the proper handling and storage of firearms.
- Use the product only as intended and in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and unauthorized individuals.
- Regularly inspect the product for wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that your finger is outside the trigger guard when not actively shooting.
- Do not attempt to operate the bolt release while the firearm is pointed at yourself or others.
- Always wear appropriate eye and ear protection when using firearms.
- Avoid using the product in adverse weather conditions that may affect your grip or visibility.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### Installation

1. Ensure the firearm is unloaded and the chamber is clear.
2. Remove the factory bolt release lever from your DPMS LR308 or compatible rifle.
3. Align the EBRv2/308 extended bolt release with the mounting area.
4. Securely attach the extended bolt release, ensuring it is firmly in place.
5. Test the operation of the lever to confirm proper installation.

### Usage

- To lock the bolt rearward, push upward on the lever using your trigger finger.
- To release the bolt, push lightly downward on the lever while maintaining a firm grip on the pistol grip.
- Practice these operations in a safe environment to become familiar with the functions.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and firearm components.
- Do not throw the product away in regular household waste.
- Consider recycling options available in your area to minimize environmental impact.

## Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's official website or customer service resources. Always ensure you have the latest information regarding the product and its safety guidelines.

Thank you for prioritizing safety while using the 308 AR V2 Extended Bolt Release. Your compliance with these guidelines helps ensure a safe shooting experience for you and those around you.
