RUGER® MARKI/II/III™ & 22/45™ HEAVY DUTY EJECTOR SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the RUGER® MARKI/II/III™ & 22/45™ Heavy Duty Ejector from Tactical Solutions, LLC. This product is designed to enhance the performance of your Ruger .22 pistol by providing a reliable and durable ejector replacement. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always handle firearms with care and follow the basic rules of firearm safety.
- Ensure that the firearm is unloaded before installing or replacing any components.
- Keep the work area clean and free from distractions while performing installation.
- Use personal protective equipment, such as safety glasses, when handling tools or components.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- The ejector is made from hardened 416 stainless steel, providing strength and wear resistance. However, it is essential to inspect the ejector regularly for signs of wear or damage.
- Ensure that the ejector is compatible with your specific Ruger model (Mark I, Mark II, Mark III, or 22/45) before installation.
- Keep the ejector and all firearm components out of reach of children and unauthorized users.
- If you experience any issues with ejection after installation, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary tools, including a screwdriver compatible with the mounting screw provided.

2. Removal of the Old Ejector:

- Locate the existing ejector in your Ruger pistol.
- Carefully remove the mounting screw using the screwdriver.
- Gently pull out the old ejector from its housing.

3. Installation of the New Ejector:

- Take the new ejector and align it with the housing in your Ruger pistol.
- Insert the ejector into the housing until it is properly seated.
- Secure the ejector in place by using the provided 416 stainless steel mounting screw. Ensure it is tightened firmly but do not overtighten.

4. Testing the Installation:

- After installation, perform a function check to ensure proper operation.
- Load the firearm with dummy rounds to test the ejection process without live ammunition.

5. **Regular Maintenance:**

- Periodically check the ejector for wear and ensure that the mounting screw remains secure.
- Clean the ejector and surrounding area to prevent any buildup that may affect performance.

Disposal Instructions

- Dispose of any old or damaged ejectors and components in accordance with local regulations for metal waste.
- Do not dispose of the ejector in a manner that could pose a hazard to the environment or public safety.

Contact Information for Further Support

For any inquiries regarding the RUGER® MARKI/II/III™ & 22/45™ Heavy Duty Ejector, please contact the manufacturer or refer to the product documentation provided with your purchase.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
