# Safety Instruction Guide for RAM S&W M&P Reset Assist Mechanism

## Introduction

Thank you for choosing the RAM S&W M&P Reset Assist Mechanism by APEX Tactical Specialties Inc. This product is designed to enhance the performance of your Smith & Wesson M&P pistol by improving the tactile trigger reset. It is important to read and understand this safety instruction guide to ensure safe and effective use of the product.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store the firearm and the Reset Assist Mechanism in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the Reset Assist Mechanism and your firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm use and modifications.

## Specific Safety Precautions for Use

- This product is designed for use only with Smith & Wesson M&P 9mm, .357 Sig, and .40 S&W models that do not include a thumb safety, magazine disconnect, or internal locking system.
- The Reset Assist Mechanism will not function in the VTAC variant due to changes in the sear housing block configuration.
- Do not attempt to modify the Reset Assist Mechanism or the firearm in any way that could compromise safety.
- If you experience any malfunction or unusual behavior from your firearm after installation, discontinue use immediately and seek professional assistance.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather the necessary tools for installation, including a punch and hammer.
