New Versatility For The World's Most Popular Shotgun

Innovative, integrated accessory system lets you apply the "Magpul Method" to make the tried-and-true 12 gauge 870 into a state-of-the-art tactical shotgun exactly fitted to your mission requirements. Major components are made from the same tough, hard polymer Magpul uses for their AR-15 stocks to ensure superb durability under harsh conditions. Easy to install modular risers fit on the comb of the SGA Stock to change the comb height for a better cheek weld and to position the shooter's head at the proper height for various sights and optics. Low kit includes two inserts that raise the comb $\frac{1}{4}$ " or $\frac{1}{2}$ " above the standard SGA comb. High kit's two inserts raise the comb $\frac{1}{2}$ " or $\frac{3}{4}$ " above the standard comb.

*Note: For aftermarket raised receiver rails and optics utilizing higher mounts, you may need to add to the common configurations above accordingly. Optic mounts designed for the AR15/M16 platform may be too high for use with the Magpul SGA stock depending on the shooter preference.

Safety Instruction Guide for REMINGTON 870 SGA Cheek Riser Kits

Introduction

Thank you for choosing the REMINGTON 870 SGA Cheek Riser Kits. This innovative accessory system is designed to enhance your shooting experience by allowing you to customize the comb height of your shotgun. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always ensure the shotgun is unloaded before installing or adjusting the cheek riser.
- Use the cheek riser kits only with compatible models, specifically the REMINGTON 870 SGA Stock.
- Regularly inspect the cheek riser for any signs of wear or damage before each use.
- Keep the cheek riser kits out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure a safe shooting environment at all times.

Specific Safety Precautions for Use

- When using lowprofile bead sights or ghost rings, ensure that the cheek riser is adjusted to the appropriate height to maintain proper sight alignment.
- For red dot or holographic sights, use the $\frac{1}{4}$ " or $\frac{1}{2}$ " riser options to achieve the best cheek weld.
- If utilizing a magnified optic, adjust the riser to $\frac{1}{2}$ " or $\frac{3}{4}$ " to ensure optimal shooting posture.
- Avoid using the cheek riser kits in extreme weather conditions until you have confirmed their performance under such conditions.

Instructions for Installation and Usage

1. Installation:

- Ensure the shotgun is completely unloaded.
- Remove the existing comb from the SGA Stock by following the manufacturer's instructions.
- Select the desired riser insert ($\frac{1}{4}$ ", $\frac{1}{2}$ ", or $\frac{3}{4}$ ") based on your preferred cheek height.
- Align the riser insert with the comb of the SGA Stock and press it firmly into place until it clicks securely.
- Reattach the comb to the shotgun, ensuring it is securely fastened.

2. Usage:

- Always check that the riser is firmly attached before each use.
- Adjust your shooting position to ensure a comfortable and stable cheek weld.
- Practice shooting with the cheek riser installed to familiarize yourself with its effects on your aim and comfort.

Disposal Instructions

- Dispose of the cheek riser kits in accordance with local regulations for plastic waste.
- If the product is damaged or no longer usable, ensure it is disposed of in a manner that prevents accidental use by children or unauthorized individuals.

Contact Information for Further Support

For any safety inquiries or additional support, please contact the manufacturer or your local retailer where the product was purchased. Ensure you have the product details ready for reference.

By adhering to these safety guidelines and instructions, you can ensure a safe and enjoyable shooting experience with your REMINGTON 870 SGA Cheek Riser Kits. Thank you for your attention to safety!
