

RIFLE FACTORY CRIMP DIES - LEE PRECISION 30-06 SPRINGFIELD FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

Attributes

- Name: [LEE PRECISION 30-06 SPRINGFIELD FACTORY CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100010086
- Mfr. No.: 90824
- Cartridge: 30-06 Springfield
- Die Style: Crimp Die
- Delivery weight: 0.181kg
- Shipping height: 36mm
- Shipping width: 84mm
- Shipping length: 117mm
- UPC: 734307908249

Safety Instruction Guide for Lee Precision 3006 Springfield Factory Crimp Die

Introduction

Thank you for choosing the Lee Precision 3006 Springfield Factory Crimp Die. This guide provides important safety instructions to ensure safe and effective use of the product. Please read and understand all instructions before using the crimp die.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product specifications.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the workspace clean and organized to prevent accidents.
- Store the crimp die in a dry, secure location away from children and unauthorized users.
- Regularly inspect the crimp die for signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Use the crimp die only with compatible reloading presses that fit 7/8"14 threads.
- Ensure that the case is properly positioned in the die before crimping.
- Avoid excessive force when crimping to prevent damage to the die or the cartridge.
- Do not attempt to modify or alter the crimp die in any way.
- Keep hands and fingers clear of moving parts during operation.
- Do not use the crimp die if you are unfamiliar with reloading practices. Seek guidance from experienced users or instructional materials.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted.
- Thread the crimp die into the reloading press until it is snug. Do not overtighten.
- Adjust the die according to the manufacturer's instructions to achieve the desired crimp.

2. Usage:

- Prepare the cartridge cases by ensuring they are clean and free of debris.
- Insert the cartridge case into the shellholder of the reloading press.
- Raise the ram to bring the case into contact with the crimp die.
- Gradually apply pressure to crimp the bullet into place. Monitor the pressure to avoid overcrimping.
- Once crimping is complete, lower the ram and remove the finished cartridge.

Disposal Instructions

- Dispose of any defective or wornout crimp dies according to local regulations.
- Do not dispose of the crimp die in regular household waste.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance, please reach out to the appropriate EU-based contact point for product safety.

Conclusion

By following these safety instructions, you will ensure a safer reloading experience with the Lee Precision 3006 Springfield Factory Crimp Die. Always prioritize safety and consult experienced reloaders if you have any questions or concerns.
