

UNIFLOW POWDER MEASURE ACCESSORIES - RCBS UNIFLOW POWDER MEASURE POWDER BAFFLE

[Reloading](#) > [Powder Handling](#) > [Measure Stands & Accessories](#)

The RCBS Uniflow Powder Measure will throw consistently accurate charges by volume with all types of smokeless powder. The straight forward measuring cylinder design helps eliminate powder hang ups which can lead to double charges or overcharges. The numbered measuring screw changes easily from charge to charge, and enables you to go back to a known charge at a later date. The precision ground cylinder is honed main casting produce a smooth and accurate powder dispensing system. Mount is a standard 7/8 to fourteen thread, comes with a bench or shelf bracket and two drop tubes for 22 caliber and up. Mounts on the RCBS Powder Measure or the Sinclair Powder Measure Stand (11-1200), accepts Sinclair Drop Tubes with a Sinclair Adapter. DO NOT USE WITH BLACK POWDER.

Safety Instruction Guide for UNIFLOW Powder Measure Accessories

Introduction

Thank you for purchasing the UNIFLOW Powder Measure Accessories by RCBS. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always store the product in a safe and secure location, away from children and pets.
- Follow all local laws and regulations regarding the use and storage of powder measures and related equipment.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- Do not use the product with black powder or any other substances not specified by the manufacturer.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the powder measure.
- Ensure the workspace is clean and free from any clutter that could lead to accidents.
- Avoid using the product in poorly ventilated areas to prevent inhalation of dust or fumes.
- Do not exceed the recommended charge limits as specified in the product manual.
- Keep fingers and other body parts away from moving parts during operation.

Instructions for Installation and Usage

Installation

1. Mounting the Powder Measure:

- Use the standard 7/8 to fourteen thread to mount the powder measure securely.
- Attach the bench or shelf bracket as provided with the product.
- Ensure the unit is stable and does not wobble during use.

2. Attaching Drop Tubes:

- Select the appropriate drop tube for your application (22 caliber and up).
- Insert the drop tube into the designated slot and ensure it is firmly attached.

Usage

1. Loading Powder:

- Only use smokeless powder as specified. DO NOT USE WITH BLACK POWDER.
- Fill the measuring cylinder with the desired amount of powder, ensuring no spillage.

2. Setting Charges:

- Adjust the numbered measuring screw to the desired charge amount.
- Ensure that the screw is securely in place to avoid accidental changes during operation.

3. Dispensing Powder:

- Activate the dispensing mechanism gently to release the powder charge.
- Always check the charge weight before proceeding to load ammunition.

Disposal Instructions

- Dispose of the product according to local regulations regarding hazardous materials.
- Do not throw the product in regular household waste. Contact local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the product, please refer to the manufacturer's website or contact their customer support service for assistance.

Thank you for following these safety guidelines. Your safety is our priority, and we hope you enjoy using the UNIFLOW Powder Measure Accessories.
