

# **S&W SHIELD ACTION ENHANCEMENT TRIGGER & DUTY/CARRY KIT - APEX TACTICAL SPECIALTIES INC SHIELD CARRY KIT**

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

The Shield Action Enhancement Trigger Kit directly replaces the factory hinged trigger with a solid aluminum trigger body. The trigger reduces Trigger pre-travel and over-travel by approximately 20%. It features a flat face with a center mounted pivoting safety. The center mounted pivoting safety bar prevents unintended operation by creating a trigger block that will not disengage unless the shooter places their finger directly on the trigger face. The flat, smooth face trigger causes the shooter to place their finger on the center line of the trigger and encourages trigger manipulation directly in line with the bore axis. The Shield Action Enhancement Trigger is perfect for use with the M&P Shield already equipped with the Apex Shield Carry Kit. This kit is a combination of the Shield Duty/Carry Action Enhancement Kit and the Shield Action Enhancement Trigger. The APEX Shield Carry Kit Kit (SCK) was designed to provide the M&P Shield pistol owner a smooth, consistent 5 - 5.5 lb trigger pull with the advantages of shorter over-travel and more detectable trigger reset. All of the components work together to provide a pull weight within the acceptable range for a top end, service pistol. The kit itself is engineered to be drop-in and should not require further gunsmithing.

However, armorer or gunsmith installation of the USB into the Shield slide is strongly recommended\*\*. Fits Smith & Wesson Shield in 9mm and .40 S&W. Parts Included: Fully machined Sear Ultimate Striker Block Kit Ultimate Striker Block Striker Block Spring Talon Tactical tool Shield Carry Spring Set Sear Spring (1/8") Slave Pin (to assist with trigger return spring installation) 4 lb Rated Trigger Return Spring

# Safety Instruction Guide for S&W SHIELD ACTION ENHANCEMENT TRIGGER & DUTY/CARRY KIT

## Introduction

Thank you for choosing the S&W Shield Action Enhancement Trigger & Duty/Carry Kit from Apex Tactical Specialties Inc. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the trigger kit and follow all instructions provided. This product is designed for use with the M&P Shield pistol in 9mm and .40 S&W.
- **Enhanced Recalls:** Stay informed about potential recalls. If notified, follow the instructions provided for returning or remedying the product.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety standards to guarantee the integrity of the product.
- **Special Consumer Focus:** This product is not intended for use by children. Keep all components out of reach of minors.
- **EU Contact Point:** For safety inquiries, please refer to the manufacturer or seller's customer service channels.
- **Rapid Alerts:** Check the EU's Safety Gate platform regularly for updates on product safety and recalls.

## Specific Safety Precautions for Use

- **Installation Warning:** Installation of the USB into the Shield slide is strongly recommended to be performed by a qualified armorer or gunsmith. Improper installation may lead to malfunction or safety hazards.
- **Trigger Safety:** The trigger features a centermounted pivoting safety designed to prevent unintended operation. Always ensure your finger is off the trigger until ready to shoot.
- **Handling:** Always treat your firearm as if it is loaded. Follow all standard firearm safety rules.
- **Modifications:** Do not modify any components of the trigger kit. Alterations may compromise safety and functionality.
- **Testing:** After installation, test the trigger in a safe environment to ensure proper functionality before regular use.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have all the parts included in the kit:
  - Fully machined Sear
  - Ultimate Striker Block
  - Kit Ultimate Striker Block
  - Striker Block Spring
  - Talon Tactical tool
  - Shield Carry Spring Set
  - Sear Spring (1/8")
  - Slave Pin (for trigger return spring installation)
  - 4 lb Rated Trigger Return Spring

- Gather necessary tools for installation.

## 2. Installation Steps:

- **Disassemble the Firearm:** Ensure the firearm is unloaded and disassemble it according to the manufacturer's instructions.
- **Remove the Factory Trigger:** Carefully remove the factory hinged trigger and any associated components.
- **Install the New Trigger:**
  - Insert the new trigger body into the frame.
  - Attach the pivoting safety bar, ensuring it is correctly positioned.
  - Follow the specific installation instructions provided with the kit for each component.
- **Reassemble the Firearm:** Once all components are installed, reassemble the firearm as per the manufacturer's guidelines.

## 3. Post-Installation Testing:

- After reassembly, conduct a function test in a safe environment.
- Ensure that the trigger operates smoothly and that the safety mechanism functions properly.

## Disposal Instructions

- **Environmental Considerations:** Dispose of any packaging materials responsibly, following local waste disposal regulations.
- **Component Disposal:** If any components of the trigger kit are damaged or no longer usable, dispose of them in accordance with local electronic waste disposal guidelines.

## Contact Information for Further Support

For any questions or concerns regarding the S&W Shield Action Enhancement Trigger & Duty/Carry Kit, please refer to the manufacturer's customer service or your point of purchase for assistance.

By following these safety instructions, you can ensure the safe and effective use of your S&W Shield Action Enhancement Trigger & Duty/Carry Kit. Always prioritize safety and responsible firearm handling practices.
