Configure The Exact Sling You Want - Change It Any Time You Want

All new for 2014, the MS1 Sling System takes the Magpul multi-mission sling concept to new levels of function, capability, and modularity. The entire system is based on the MS1, a dedicated two-point sling built around our innovative new slider, which provides rapid sling adjustments without the tails, loops, or bulk of other solutions. Even while wearing gloves, the new slider is faster, easier, and lower profile than previous slings, but your sling setting stays put, even under load. The MS1 comes without connecting hardware so you can choose what you need for your specific application. Magpul Paraclips and push-button QDs are available individually to complement our selection of sling attachment points. For the option to convert to one-point use, simply add the appropriate one-point adapter that works with your choice of hardware. Melonite™ and manganese phosphate finished steel with custom snag-free high durability 1-1/4" webbing. Made in U.S.A. Available in Black, Coyote and Ranger Green.

Attributes

- Name: [MAGPUL MS1 TWO-POINT RIFLE SLING COYOTE](#)

MS1 MultiMission Sling Safety Instructions

Introduction

Thank you for choosing the MS1 MultiMission Sling by Magpul. This safety instruction guide is designed to ensure the safe use and enjoyment of your new sling. It is important to read and understand these guidelines to prevent accidents and injuries.

General Safety Guidelines

- Ensure the sling is used in accordance with the manufacturer's instructions.
- Regularly inspect the sling for wear and tear before each use.
- Use only the recommended connecting hardware for attachment.
- Keep the sling away from heat sources and sharp objects to prevent damage.
- Store the sling in a cool, dry place when not in use.
- Avoid exposing the sling to harsh chemicals or solvents.
- Be cautious when adjusting the sling, especially when under load.

Specific Safety Precautions for Use

- Always check that the sling is securely attached to your firearm before use.
- Do not exceed the weight limits of the sling and attachments.
- Ensure that the sling is adjusted to fit securely and comfortably.
- When transitioning from a twopoint to a onepoint configuration, verify that the adapter is properly installed.
- Use gloves if necessary to maintain grip and control while adjusting the sling.
- Be aware of your surroundings and avoid entanglement with the sling while moving.

Instructions for Installation and Usage

Installation

1. **Select Connecting Hardware:** Choose the appropriate Magpul Paraclips or pushbutton QDs for your application.
2. **Attach to Firearm:** Securely attach the sling to the designated attachment points on your firearm. Ensure that the hardware is properly locked in place.
3. **Adjust the Sling:** Use the slider to adjust the length of the sling for optimal fit. Ensure that adjustments are made while the sling is not under load.

Usage

- **TwoPoint Configuration:** For standard use, adjust the sling to your desired length and ensure it is secure.
- **OnePoint Configuration:** If converting to a onepoint sling, install the onepoint adapter according to the manufacturer's instructions.
- **Adjusting Under Load:** To adjust the sling while wearing gloves, grip the slider firmly and pull to modify the length. Ensure the setting remains secure after adjustment.

Disposal Instructions

- Dispose of the sling in accordance with local regulations.
- If the sling is damaged beyond repair, consider recycling the materials if possible.
- Do not dispose of the sling in household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the manufacturer's contact details provided with your product packaging.

Thank you for prioritizing safety while using the MS1 MultiMission Sling. Your attention to these guidelines will help ensure a safe and enjoyable experience.
