

# MINI WATER FILTRATION SYSTEM - SAWYER MINI WATER FILTER SYSTEM - BLUE

[Emergency & Survival Gear](#) > [Water & Hydration](#) > [Filters](#)

The most popular filter just got smaller and lighter. The Mini weighs just 2 ounces and filters up to 100,000 gallons! What's special about Sawyer filters is they filter to 0.1 micron absolute, exceeding EPA and NSF recommendations. Did we mention you can drink directly from the Mini, attach it to Sawyer Squeeze Pouches, use inline on a hydration pack, or attach it to the top of almost any bottled water? How about that for versatility? And like all Sawyer Filters; they are backflushable almost indefinitely. That means no expensive cartridges to replace, ever. Kit Includes: 1 - Sawyer MINI Water Filter with Tip Cap 1 - 16 oz Reusable Squeeze Pouch 1 - 7" Drinking Straw 1 - Cleaning Plunger (Syringe) Cleaning and Maintenance Instructions

## Introduction

Thank you for choosing the Sawyer Mini Water Filter System. This guide provides essential safety instructions to ensure the safe use of your water filtration system. Please read this manual carefully before using the product to understand the necessary precautions and guidelines.

## General Safety Guidelines

- Ensure safe use of the Sawyer Mini Water Filter by following these guidelines:
  - Always use the filter in accordance with the manufacturer's instructions.
  - Regularly inspect the filter for any signs of damage or wear before use.
  - Keep the filter out of reach of children to prevent accidental use or ingestion.
  - Do not use the filter to purify water from sources known to be contaminated with chemical pollutants.
- In case of an emergency, such as being stranded, utilize the filter as instructed to ensure safe drinking water.
- Be aware of the risks associated with outdoor activities and ensure you have a reliable water source.
- Report any unsafe products or accidents to local authorities.

## Specific Safety Precautions for Use

- Before using the Sawyer Mini Water Filter:
  - Check that all components are included in the kit:
  - 1 – Sawyer MINI Water Filter with Tip Cap
  - 1 – 16 oz Reusable Squeeze Pouch
  - 1 – 7" Drinking Straw
  - 1 – Cleaning Plunger (Syringe)
  - Ensure that the filter is clean and free from debris.
  - Do not attempt to modify or repair the filter.
- When using the filter:
  - Drink directly from the filter or use it with the included squeeze pouch or drinking straw.
  - Do not use the filter with water that is visibly contaminated or has an unusual odor.
  - Regularly backflush the filter as per the maintenance instructions to ensure optimal performance.
- After use:
  - Clean the filter and its components thoroughly before storing.
  - Store the filter in a cool, dry place away from direct sunlight.

## Instructions for Installation and Usage

### • Setup Instructions:

1. Remove the Sawyer Mini Water Filter from the packaging.
2. Attach the Tip Cap securely to the filter.
3. If using the squeeze pouch, fill it with water from a safe source.
4. Attach the filter to the pouch or insert the straw directly into the water source.

### • Usage Instructions:

- To drink directly from the filter:
  1. Place the filter in the water source.

2. Sip directly from the filter.
- To use with the squeeze pouch:
  1. Fill the pouch with water.
  2. Squeeze the pouch gently to push water through the filter into your mouth or another container.
- To use inline on a hydration pack:
  1. Connect the filter between the hydration pack and the drinking tube.

- **Backflushing Instructions:**

1. Fill the cleaning plunger with clean water.
2. Attach the plunger to the filter.
3. Push the plunger to backflush the filter, cleaning out any trapped contaminants.

## Disposal Instructions

- When the filter has reached its maximum capacity (up to 100,000 gallons) or shows signs of damage:
  - Dispose of the filter according to local waste disposal regulations.
  - Do not throw the filter in regular recycling bins as it may not be recyclable.
