

# 7.62MM SUPPRESSOR ALIGNMENT ROD - GEISSELE AUTOMATICS

## 17" 7.62MM SUPPRESSOR ALIGNMENT ROD

[Gunsmith Tools](#) > [Rifle Tools](#) > [Barrel Tools](#)

The Geissele Suppressor Alignment rod is a precision gauge used to verify the alignment of a suppressor to the bore of a firearm barrel. Note: Suppressor alignment is determined by several factors: Centerline alignment (offset and angular) of the barrel threads to the bore. Perpendicularity of the barrel shoulder to the threads. Alignment of the muzzle device's internal diameter threads and torque shoulder to the suppressor attachment geometry. Alignment of the suppressor mounting ID geometry to the bore of the suppressor.

### Attributes

- Name: [GEISSELE AUTOMATICS 17" 7.62MM SUPPRESSOR ALIGNMENT ROD](#)
- Manufacturer: [GEISSELE AUTOMATICS](#)
- Product no.: 100015136
- Mfr. No.: 10-260-F
- Weapon type: AR .308
- Delivery weight: 0.163kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 457mm
- UPC: 854014005250

# Safety Instruction Guide for 7.62MM Suppressor Alignment Rod

## Introduction

Thank you for choosing the 7.62MM Suppressor Alignment Rod from Geissele Automatics. This precision tool is designed to ensure the correct alignment of your suppressor with the firearm barrel, enhancing safety and performance. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the suppressor alignment rod in accordance with the manufacturer's instructions.
- Inspect the alignment rod for any damage or wear before each use.
- Keep the alignment rod out of reach of children and unauthorized users.
- Use the alignment rod only for its intended purpose.
- Report any unsafe conditions or incidents to the relevant authorities immediately.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before using the suppressor alignment rod.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and hearing protection, when handling firearms.
- Avoid using the alignment rod in wet or damp conditions to prevent slipping.
- Do not modify the alignment rod in any way, as this may compromise its safety and effectiveness.
- Be aware of your surroundings and ensure that no one is in close proximity while using the alignment rod.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded.
- Clean the muzzle area of the firearm to remove any debris or obstructions.

### 2. Using the Alignment Rod:

- Insert the alignment rod into the muzzle of the firearm.
- Gently push the rod until it reaches the bore of the barrel.
- Check for alignment by observing the rod's position relative to the suppressor attachment point.
- If misalignment is detected, adjust the suppressor as necessary to achieve proper alignment.

### 3. Final Inspection:

- Once the suppressor is attached, perform a final check to ensure that the alignment is correct.
- Confirm that all components are securely fastened before using the firearm.

## Disposal Instructions

- Dispose of the alignment rod in accordance with local regulations.
- If the alignment rod is damaged or no longer usable, do not attempt to repair it; instead, dispose of it responsibly.
- Ensure that any materials used in the alignment rod are recycled or disposed of in an environmentally friendly manner.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the 7.62MM Suppressor Alignment Rod, please refer to the manufacturer's website or contact their customer service for assistance.

Thank you for prioritizing safety and following these guidelines while using the 7.62MM Suppressor Alignment Rod. Your attention to these instructions helps ensure a safe and enjoyable experience.
