

# MS1 PADDED SLING - MAGPUL MS1 PADDED TWO-POINT RIFLE SLING COYOTE

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

The MS1 padded sling is the latest addition to the Magpul line of rifle slings. By adding a padded section of variable-width tubular webbing to the already proven MS1 sling, this new product provides more comfort to the user when carrying heavy weapons. Other padded slings simply sew the pad onto or around an already existing sling. What Magpul has done is taken a section of variable-width webbing of our proprietary weave and stitched a high-grade, ripstop coated, closed cell foam pad to the inside of the sling. This ensures that the pad will never move inside of its housing and because the taper of the sling is woven, not stitched, the padded section has no known points of failure. By removing the structural stitching from padded slings, Magpul has created a sleek and streamlined solution that exceeds all others in durability and aesthetics.

## Attributes

# MS1 Padded Sling Safety Instructions

## Introduction

Thank you for choosing the MS1 Padded Sling by Magpul. This product is designed to provide comfort and durability while carrying your rifle. To ensure your safety and the longevity of the sling, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the sling is used only for its intended purpose: carrying a rifle.
- Always inspect the sling for wear, damage, or defects before use.
- Keep the sling away from children and vulnerable individuals.
- Do not modify the sling in any way, as this may compromise its safety and performance.
- If you notice any issues with the sling, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- When attaching the sling to your rifle, ensure that all connections are secure to prevent accidental detachment.
- Be aware of your surroundings and ensure that the sling does not get caught on obstacles.
- Use the sling in a manner that does not obstruct your movement or visibility.
- Avoid carrying heavy weapons for extended periods to prevent fatigue or discomfort.
- If you experience any discomfort while using the sling, take breaks and adjust as necessary.

## Instructions for Installation and Usage

### 1. Installation:

- Locate the attachment points on your rifle where the sling will be secured.
- Thread the sling through the attachment points, ensuring it is oriented correctly for your preferred carry style.
- Adjust the length of the sling to fit your body comfortably.
- Ensure all clips and connectors are securely fastened.

### 2. Usage:

- When using the sling, ensure that it is adjusted to a length that allows for easy access to your rifle.
- Practice using the sling in a safe environment to become familiar with its operation.
- Always keep the rifle pointed in a safe direction when using the sling.
- Store the sling in a dry and secure location when not in use.

## Disposal Instructions

- When the sling reaches the end of its useful life, dispose of it in accordance with local regulations.
- Do not burn the sling, as it may release harmful substances.
- Consider recycling the materials if possible.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the MS1 Padded Sling, please contact your local Magpul representative or visit the official Magpul website for more information.

Thank you for prioritizing safety while using the MS1 Padded Sling. Enjoy your experience with this quality

product!
