

MINI WATER FILTRATION SYSTEM - SAWYER MINI WATER FILTER SYSTEM - BLACK

[Emergency & Survival Gear](#) > [Water & Hydration](#) > [Filters](#)

The most popular filter just got smaller and lighter. The Mini weighs just 2 ounces and filters up to 100,000 gallons! What's special about Sawyer filters is they filter to 0.1 micron absolute, exceeding EPA and NSF recommendations. Did we mention you can drink directly from the Mini, attach it to Sawyer Squeeze Pouches, use inline on a hydration pack, or attach it to the top of almost any bottled water? How about that for versatility? And like all Sawyer Filters; they are backflushable almost indefinitely. That means no expensive cartridges to replace, ever. Kit Includes: 1 - Sawyer MINI Water Filter with Tip Cap 1 - 16 oz Reusable Squeeze Pouch 1 - 7" Drinking Straw 1 - Cleaning Plunger (Syringe) Cleaning and Maintenance Instructions

Safety Instruction Guide for the Sawyer Mini Water Filter System

Introduction

Thank you for choosing the Sawyer Mini Water Filter System. This guide provides essential safety instructions to ensure the safe and effective use of your water filtration system. Please read this manual carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to filter water for drinking and cooking.
- Always inspect the filter before use. Do not use if there are visible signs of damage.
- Keep the filter out of reach of children and vulnerable individuals when not in use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not use the filter with water that is chemically contaminated or has been treated with chemicals (e.g., pool water).
- Avoid using the filter with water that is warmer than 60°C (140°F).
- Do not attempt to disassemble the filter or modify it in any way.
- Use only the provided accessories (e.g., squeeze pouch, straw) to ensure proper functioning.
- When using the filter, ensure that the water source is not contaminated with large debris or hazardous materials.

Instructions for Installation and Usage

1. Preparation:

- Before initial use, rinse the filter with clean water to remove any manufacturing residues.
- Assemble the filter according to the instructions provided in the kit.

2. Using the Filter:

- To drink directly from the filter, place the tip of the filter into the water source and sip through the mouthpiece.
- To use with a squeeze pouch, fill the pouch with water, attach the filter, and squeeze the pouch to force water through the filter.
- For inline use with a hydration pack, connect the filter to the hydration hose as per the manufacturer's instructions.

3. Cleaning and Maintenance:

- After each use, backflush the filter using clean water to maintain its effectiveness.
- Use the provided cleaning plunger (syringe) to backflush the filter.
- Store the filter in a clean, dry place when not in use.

4. Disposal Instructions:

- When the filter reaches its end of life (after filtering 100,000 gallons), dispose of it according to

local regulations.

- Do not throw the filter in regular household waste; check for recycling options in your area.
