

# HANDGUN FACTORY CRIMP DIES - LEE PRECISION 5.7X28MM FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Lee Bottle Neck Handgun Factory Crimp Die incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

# Safety Instruction Guide for Lee Precision 5.7x28mm Factory Crimp Die

## Introduction

Thank you for choosing the Lee Precision 5.7x28mm Factory Crimp Die. This product is designed to enhance your reloading experience by providing a reliable and effective crimping solution. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose as specified in the product description.
- Always wear appropriate safety gear, such as eye protection, when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for proper installation and usage.
- Do not exceed the recommended specifications for the cartridges being crimped.
- Ensure that the die is securely mounted before use to prevent accidents.
- Avoid using the die with damaged or deformed cases, as this may lead to malfunctions.
- Do not use excessive force when crimping, as this may damage the die or the cartridge.
- Be cautious when handling live ammunition and follow all local laws and regulations.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your reloading press is clean and free of debris.
- Insert the Lee Precision 5.7x28mm Factory Crimp Die into the reloading press.
- Secure the die in place according to the press manufacturer's instructions.
- Adjust the die to the desired crimp depth based on your specific reloading needs.

### 2. Usage:

- Prepare your cases by resizing and cleaning them before crimping.
- Place the bullet into the case mouth, ensuring proper alignment.
- Operate the reloading press to apply the crimp using the Factory Crimp Die.
- Inspect the crimped cartridges for consistency and quality before use.
- Store completed cartridges in a safe and secure location.

## Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on the proper disposal of hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Lee Precision 5.7x28mm Factory Crimp Die, please refer to the manufacturer's contact information available on the product packaging or their official website.

Thank you for prioritizing safety in your reloading activities. Enjoy your reloading experience with the Lee Precision 5.7x28mm Factory Crimp Die.
