

# RIFLE FACTORY CRIMP DIES - LEE PRECISION 45 COLT COLLET STYLE CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool Tests demonstrate that even bullets which have no crimp groove will shoot more accurately A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation Features a collet that squeezes the case mouth into the crimping groove for a firm hold Shellholder not included Fits all 7/8"-14 reloading presses

## Attributes

- Name: [LEE PRECISION 45 COLT COLLET STYLE CRIMP DIE](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100018919
- Mfr. No.: 90302
- Cartridge: 45 (Long) Colt
- Die Style: -
- Delivery weight: 0.109kg
- Shipping height: 51mm
- Shipping width: 51mm
- Shipping length: 127mm
- UPC: 734307903022

# Safety Instruction Guide for Lee Precision 45 Colt Collet Style Crimp Die

## Introduction

Thank you for choosing the Lee Precision 45 Colt Collet Style Crimp Die. This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of the product. Please read this document carefully before use.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your reloading press before using the crimp die.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep the work area clean and free from clutter to prevent accidents.
- Store the crimp die and all reloading components in a secure, dry place away from children and unauthorized users.
- Regularly inspect the crimp die for any signs of wear or damage before each use.

## Specific Safety Precautions for Use

- Only use the crimp die with cartridges specifically designed for the 45 Colt caliber.
- Do not exceed the recommended load limits for the cartridges you are reloading.
- Ensure that the crimp die is properly secured in the reloading press before use.
- Avoid placing hands or fingers near the die while it is in use.
- Always doublecheck that the correct components are being used before starting the reloading process.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the crimp die to your 7/8"14 reloading press by threading it into the press's die holder.
- Adjust the die to the desired position according to your reloading specifications.

### 2. Usage:

- Insert the cartridge case into the press and ensure it is properly aligned with the crimp die.
- Pull the press handle down smoothly to apply the crimp.
- Inspect the crimp on the bullet to ensure it is secure and uniform.
- Repeat the process for each cartridge, ensuring consistent pressure for uniform crimping.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste. Follow specific disposal guidelines for hazardous materials if applicable.

## Contact Information for Further Support

For any questions or concerns regarding the Lee Precision 45 Colt Collet Style Crimp Die, please refer to the manufacturer's website or contact your local dealer for assistance.

## Conclusion

By following these guidelines, you can ensure the safe and effective use of the Lee Precision 45 Colt Collet Style Crimp Die. Always prioritize safety and compliance with local laws and regulations when reloading ammunition. Thank you for your attention to these important safety instructions.
