

# SIZING DIES - REDDING SAECO SIZING DIE .452" DIAMETER

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

SAECO sizing dies are made with a unique prelead that fits the "as cast" bullet diameter for a depth of approximately .3 inches. This special entrance throat insures that the bullet feeds into the sizing diameter in absolute straight alignment. The constriction between the two diameters is a gentle taper which eliminates lead shearing and sizes the bullet concentrically. The dies are finished by internal honing known as micro-finishing which produces a mirror like finish and a sizing hole that is perfectly round. your bullets will look like polished silver with no lead shavings.

## Attributes

- Name: [REDDING SAECO SIZING DIE .452" DIAMETER](#)
- Manufacturer: [REDDING](#)
- Product no.: 100020355
- Mfr. No.: 30452
- Diameter (in): 0.452
- Delivery weight: 0.136kg
- Shipping height: 10mm
- Shipping width: 76mm
- Shipping length: 121mm
- UPC: 611760304521

# Safety Instruction Guide for SIZING DIES

## REDDING SAECO SIZING DIE .452" DIAMETER

### Introduction

Thank you for choosing the SIZING DIES REDDING SAECO SIZING DIE .452" DIAMETER. This guide provides essential safety instructions and guidelines to ensure safe use and maintenance of the product. Please read this document carefully before using the sizing die.

### General Safety Guidelines

- Ensure that the sizing die is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment, such as safety glasses and gloves, when handling or using the sizing die.
- Keep the sizing die out of reach of children and vulnerable individuals.
- Regularly check the sizing die for any signs of damage or wear. Do not use if damaged.
- Report any unsafe products or accidents to the appropriate authorities.

### Specific Safety Precautions for Use

- Use the sizing die only for its intended purpose – sizing cast bullets with a diameter of .452 inches.
- Ensure that the sizing die is securely mounted before use to prevent accidents.
- Do not exceed the recommended pressure limits when using the sizing die to avoid malfunction or injury.
- Always work in a wellventilated area to minimize exposure to lead dust and fumes.
- Avoid direct contact with lead and lead dust; wash hands thoroughly after handling.

### Instructions for Installation and Usage

#### 1. Installation

- Ensure that your reloading press is compatible with the sizing die.
- Carefully remove the sizing die from its packaging.
- Install the sizing die into the reloading press by following these steps:
  - Unscrew the locking ring on the sizing die.
  - Insert the sizing die into the press and adjust to the desired position.
  - Tighten the locking ring securely to hold the die in place.

#### 2. Usage

- Prepare your cast bullets for sizing by ensuring they are clean and free from debris.
- Insert the bullet into the sizing die, ensuring it is aligned properly.
- Apply pressure using the reloading press handle to size the bullet.
- Once the bullet is sized, remove it from the die and inspect it for quality.
- Repeat the process for additional bullets as necessary.

### Disposal Instructions

- Dispose of any lead shavings or waste materials in accordance with local regulations for hazardous waste.
- Do not dispose of the sizing die in regular household waste if it is damaged or no longer usable. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the SIZING DIES REDDING SAECO SIZING DIE .452" DIAMETER, please contact the manufacturer or your local distributor for assistance.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your sizing die.
